Introduction

Clear TV is the world's largest and most reliable IPTV/OTT streaming platform, delivering nearly 3000 TB in streaming content per month to thousands of customers around the globe.

A simple user interface and an extensive collection of HD channels offer us the most satisfactory IPTV service in the USA, Canada, Latin America, and the UK. We broadcast thousands of live channels to stream premium HD content. Our existing customers praise the quality of the content we deliver through our IPTV service.

Clear TV lets you watch TV anywhere. We all know how annoying it could be when you want to download an app, software, or program and you can't seem to find it on your Amazon firestick options. Hence, we made this guide to assist you in downloading and navigating through **Clear TV** for Amazon Fire TV Stick with ease.

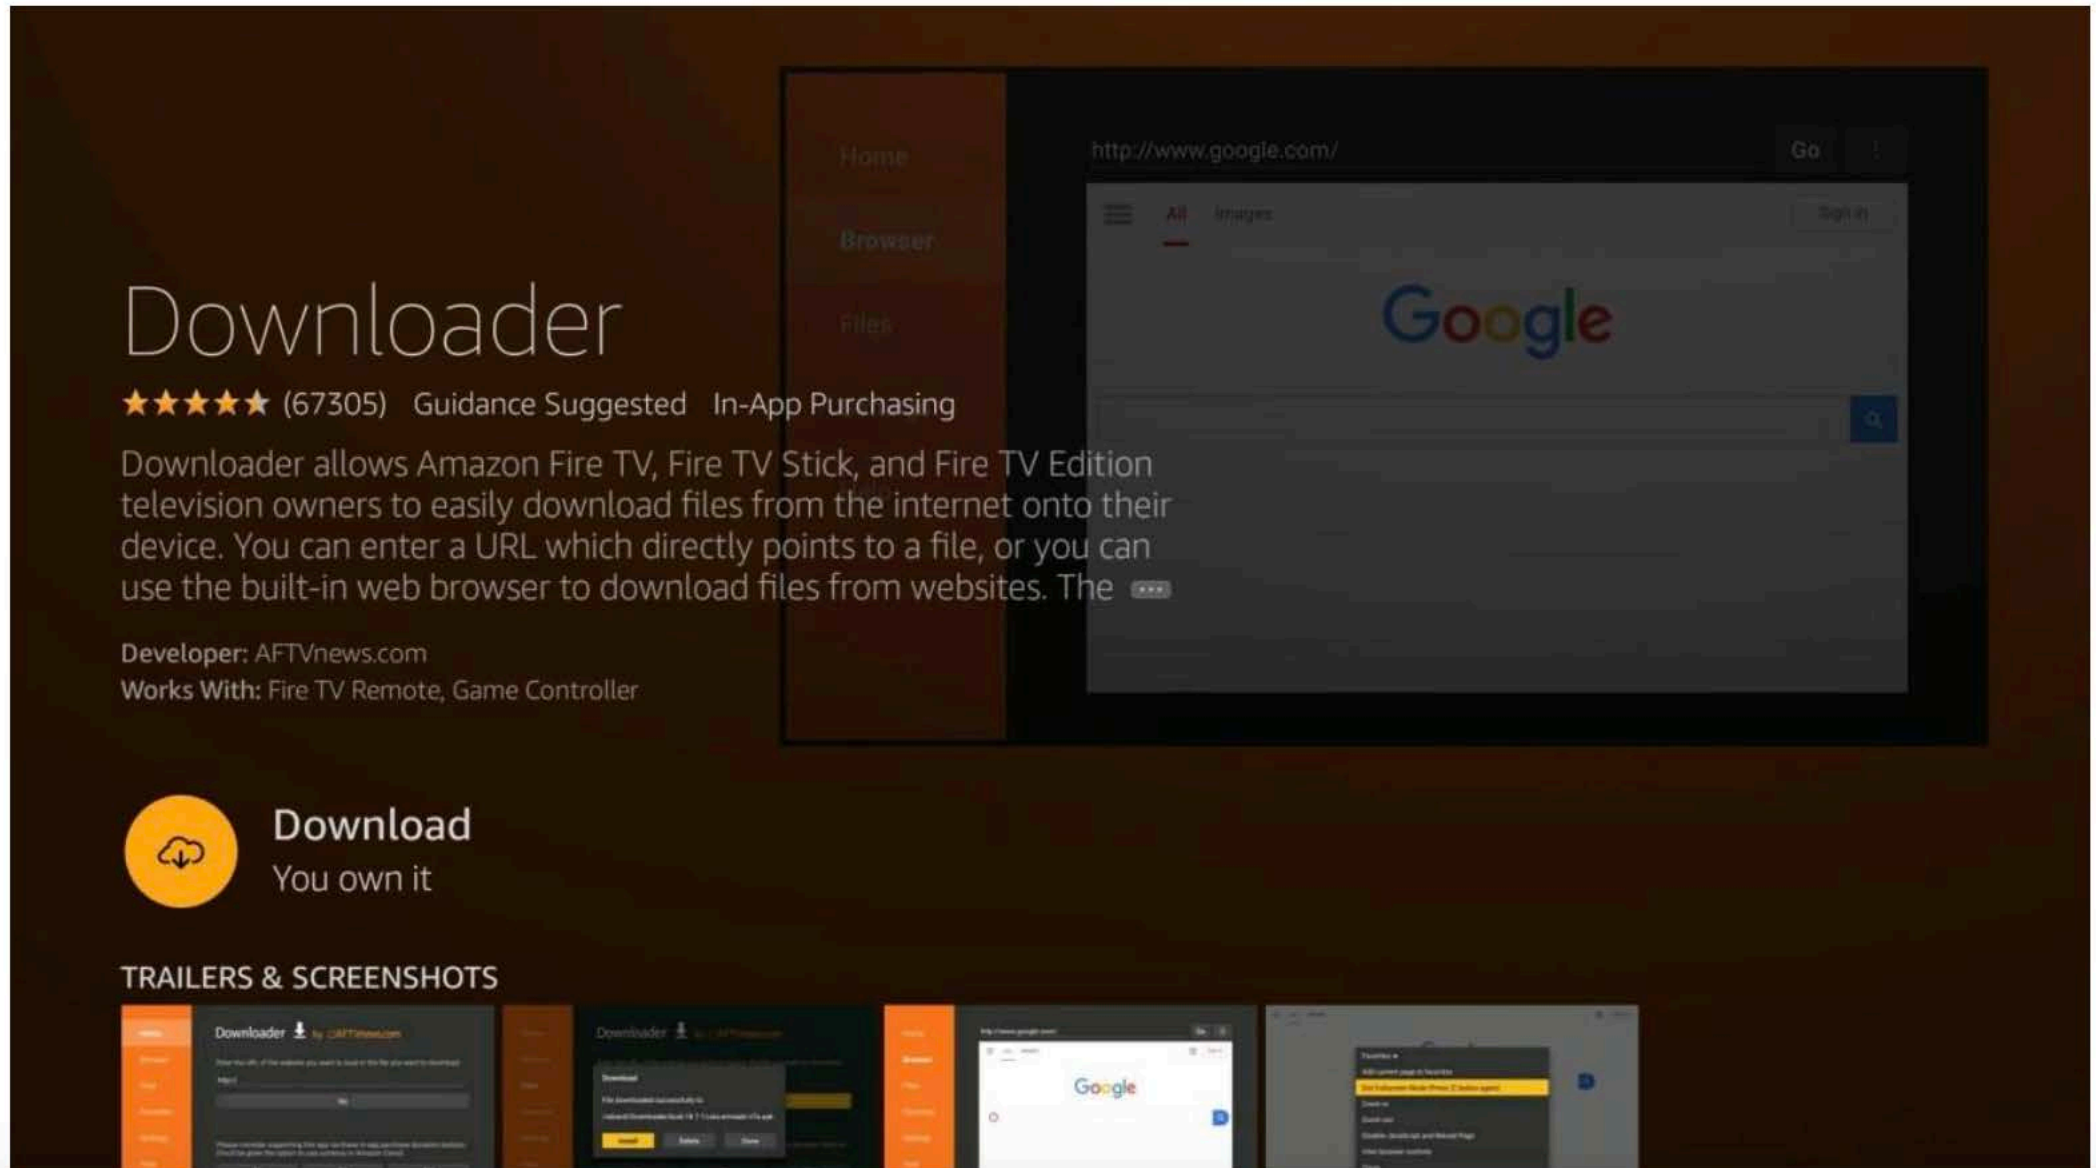

Downloading

Installing apps that are not available in the Amazon Appstore, also known as sideloading apps, on Amazon Fire TV devices varies slightly depending on the model you are using. This guide covers how to sideload the **Clear TV** APK on all models, including Fire TV boxes, Firestick, Fire TV Cubes, Fire TV Edition televisions, the new 2020 Fire TV Stick 3, and Fire TV Stick Lite.

Here are quick and easy steps to Download and Install Clear TV on your Amazon Fire TV stick.

STEP 1: Install Downloader App

Search for and install the Downloader App from the Amazon Appstore. Once the app is installed, please do **NOT** open it yet.

Downloader by AFTVnews.com

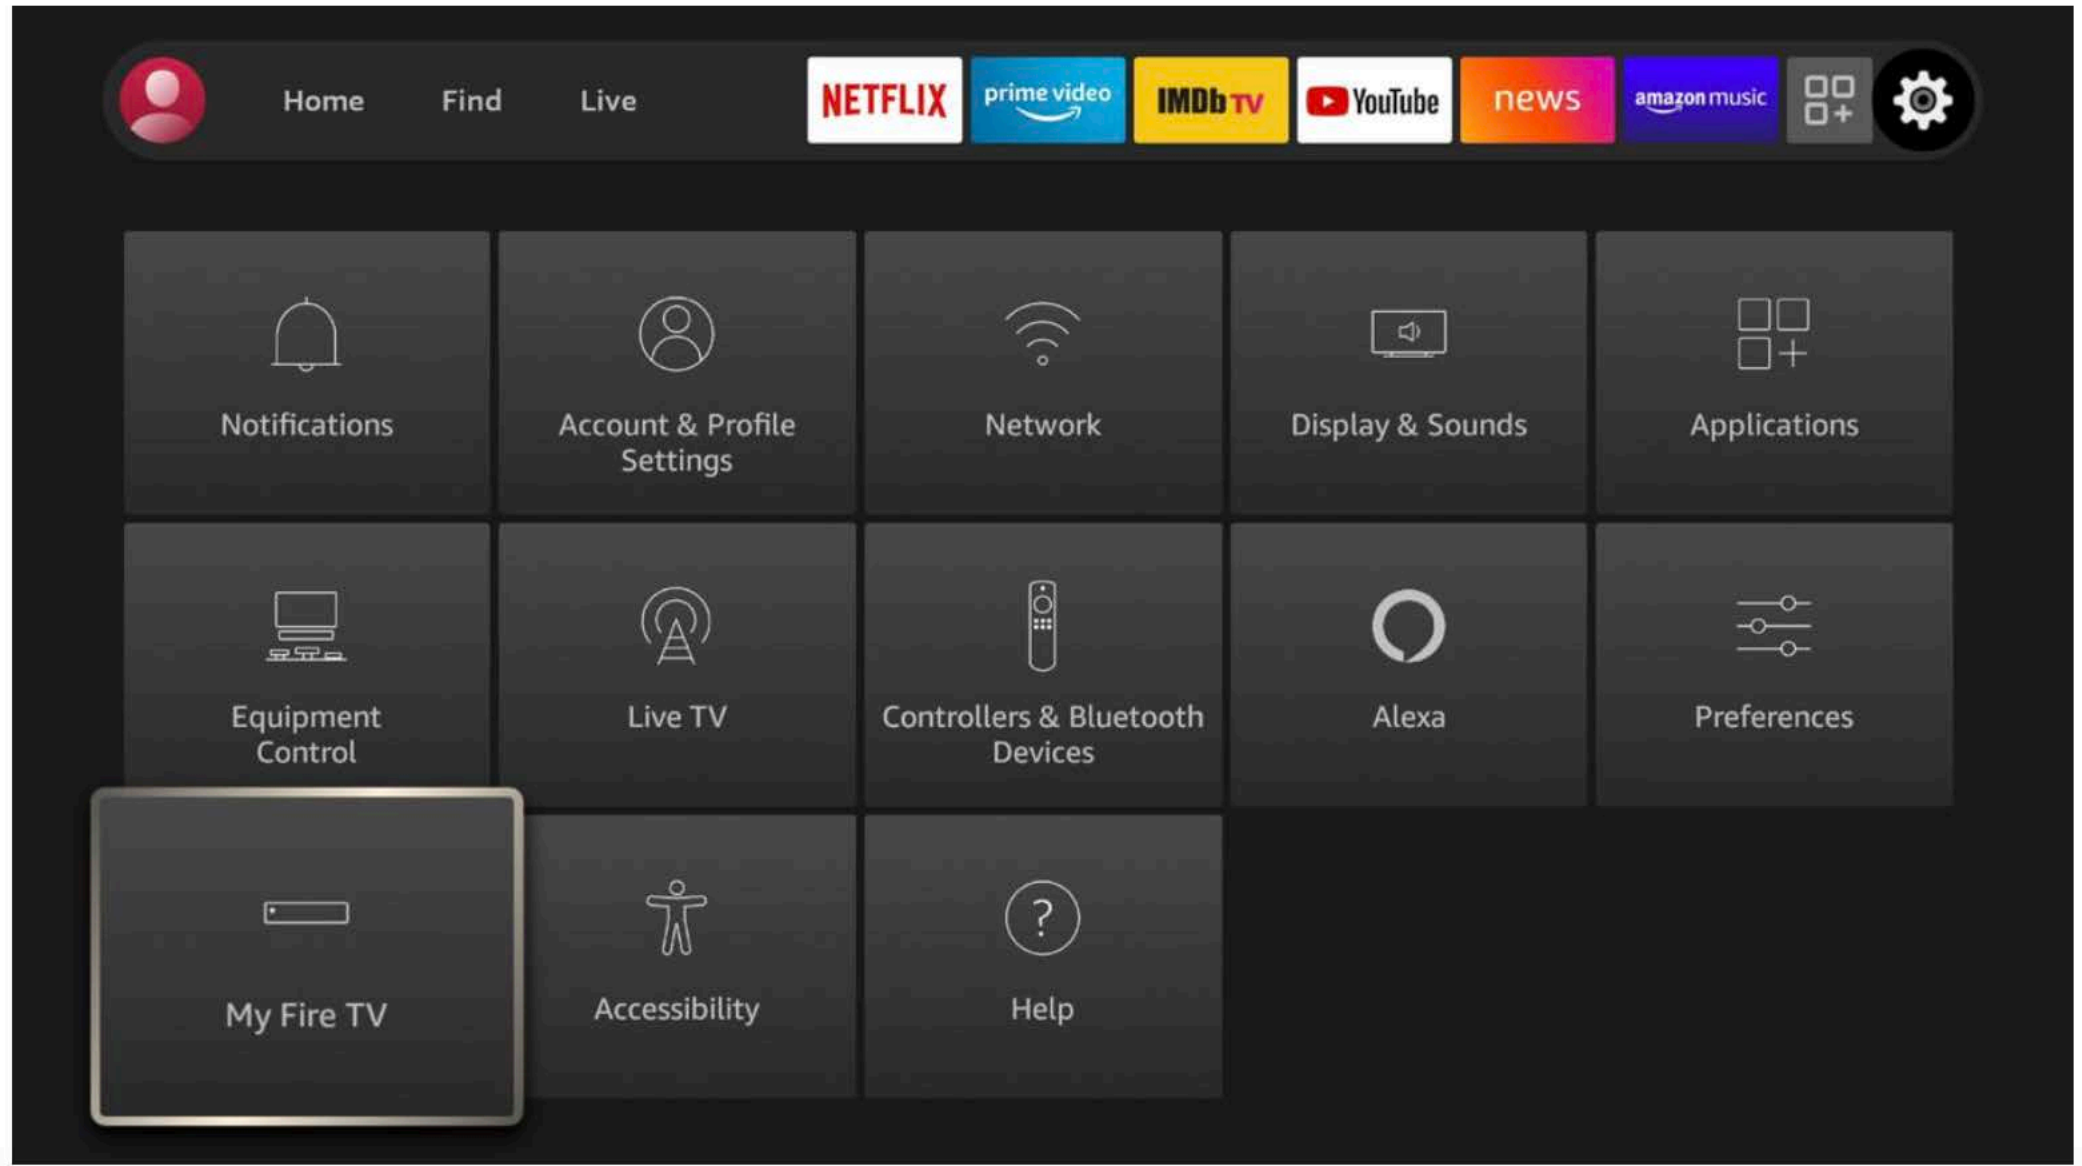

Quick Start Guide

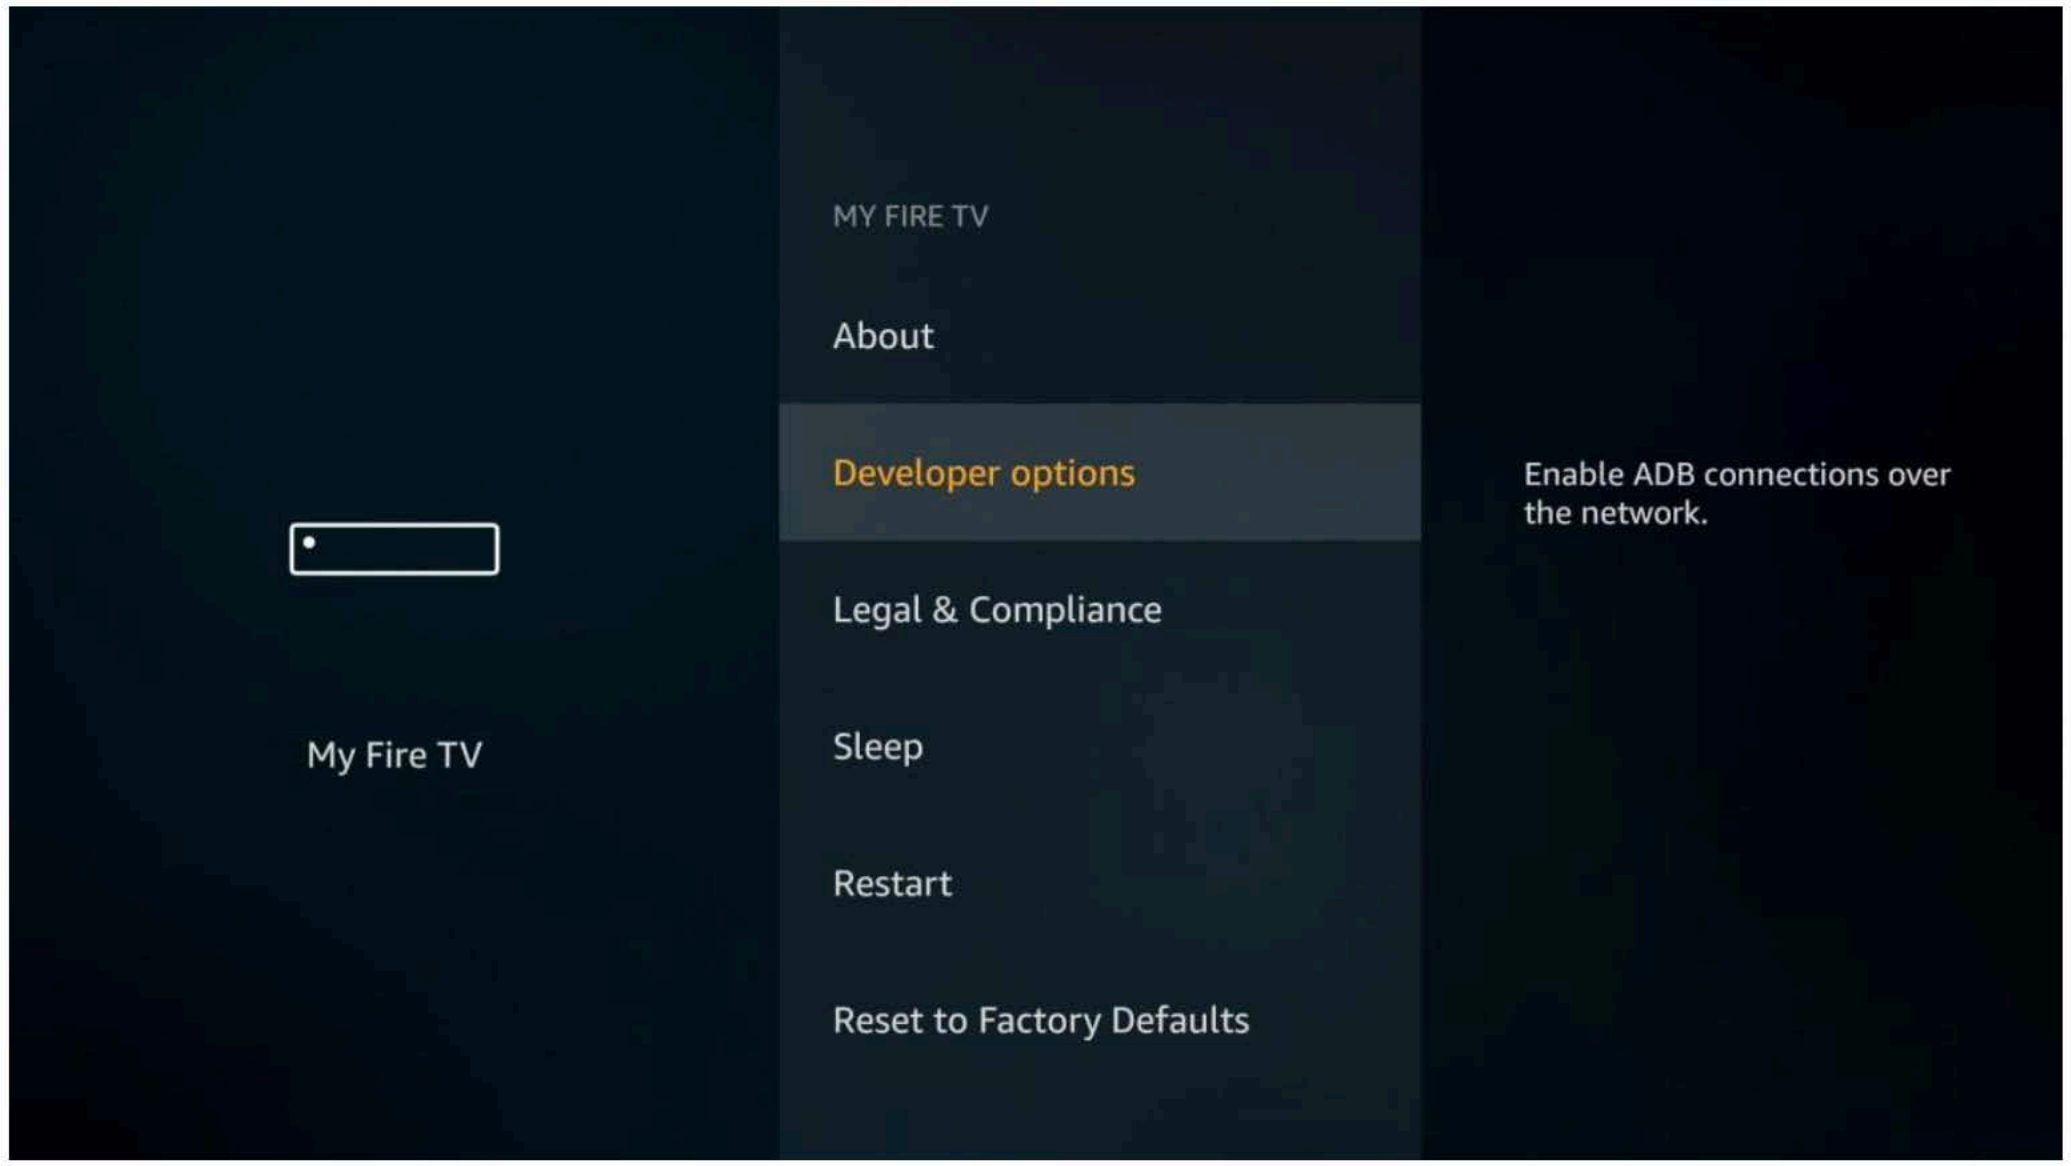

- Home: Download files by entering URL on Home screen
- Browser: Load and browse webpages.
- Files: Open and delete downloaded files.
- Favorites: Save and manage frequently visited URLs.
- Settings: Set browser and downloading options.
- Help: Detailed user manual for all features & options.

Downloader is 100% free and relies on your donations to keep it available. Please consider donating if you enjoy the app and want to keep it available.

OK

STEP 2: Go to Developer Options in Settings. Now that Downloader is installed, and you haven't launched it yet, you need to change a setting on your device. If you have any Fire TV box, Fire TV Stick, Fire TV Stick 4K, or Fire TV Cube, navigate to *Settings > My Fire TV > Developer Options*

If you have any Fire TV Edition television, navigate to *Settings > Device & Software > Developer Options*

Sleep

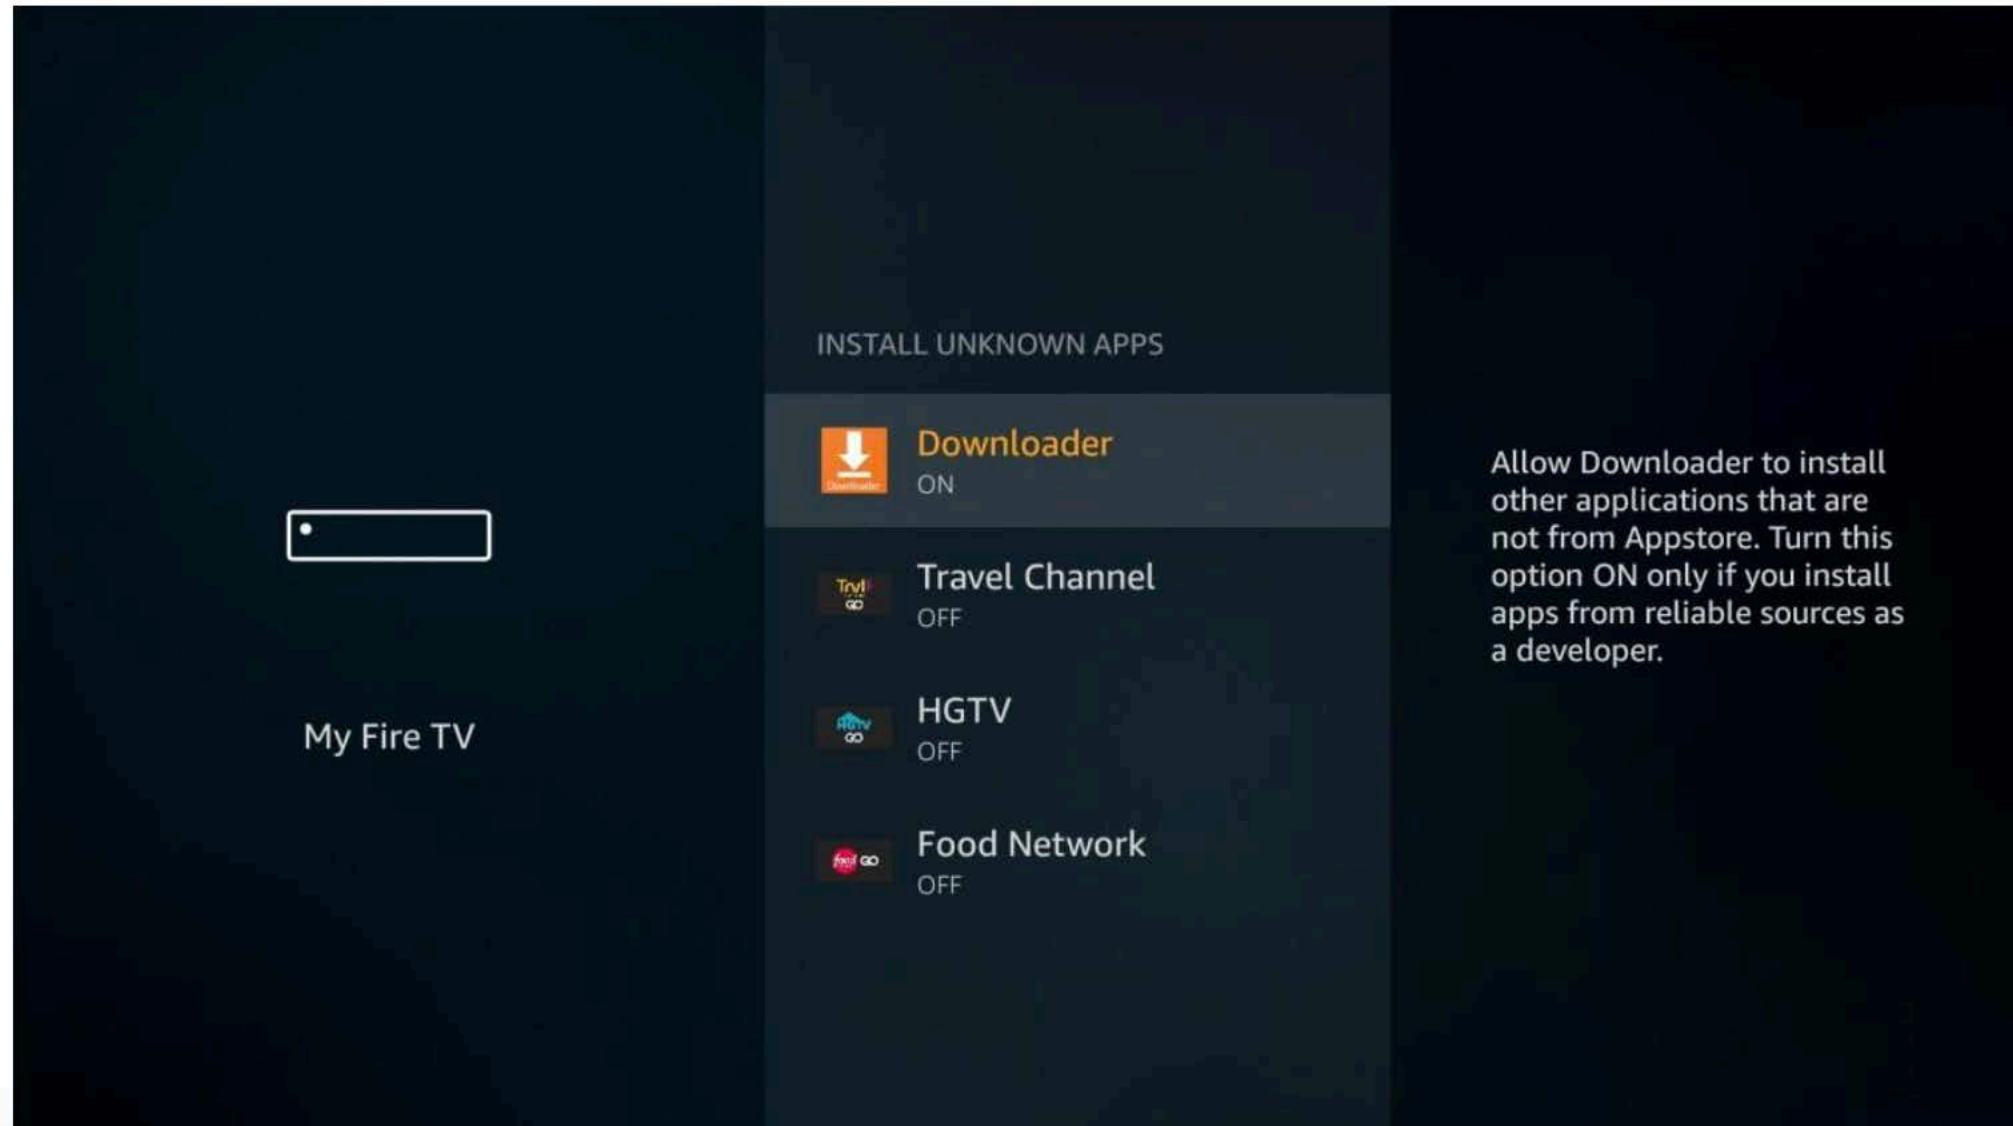

Restart

Reset to Factory Defaults

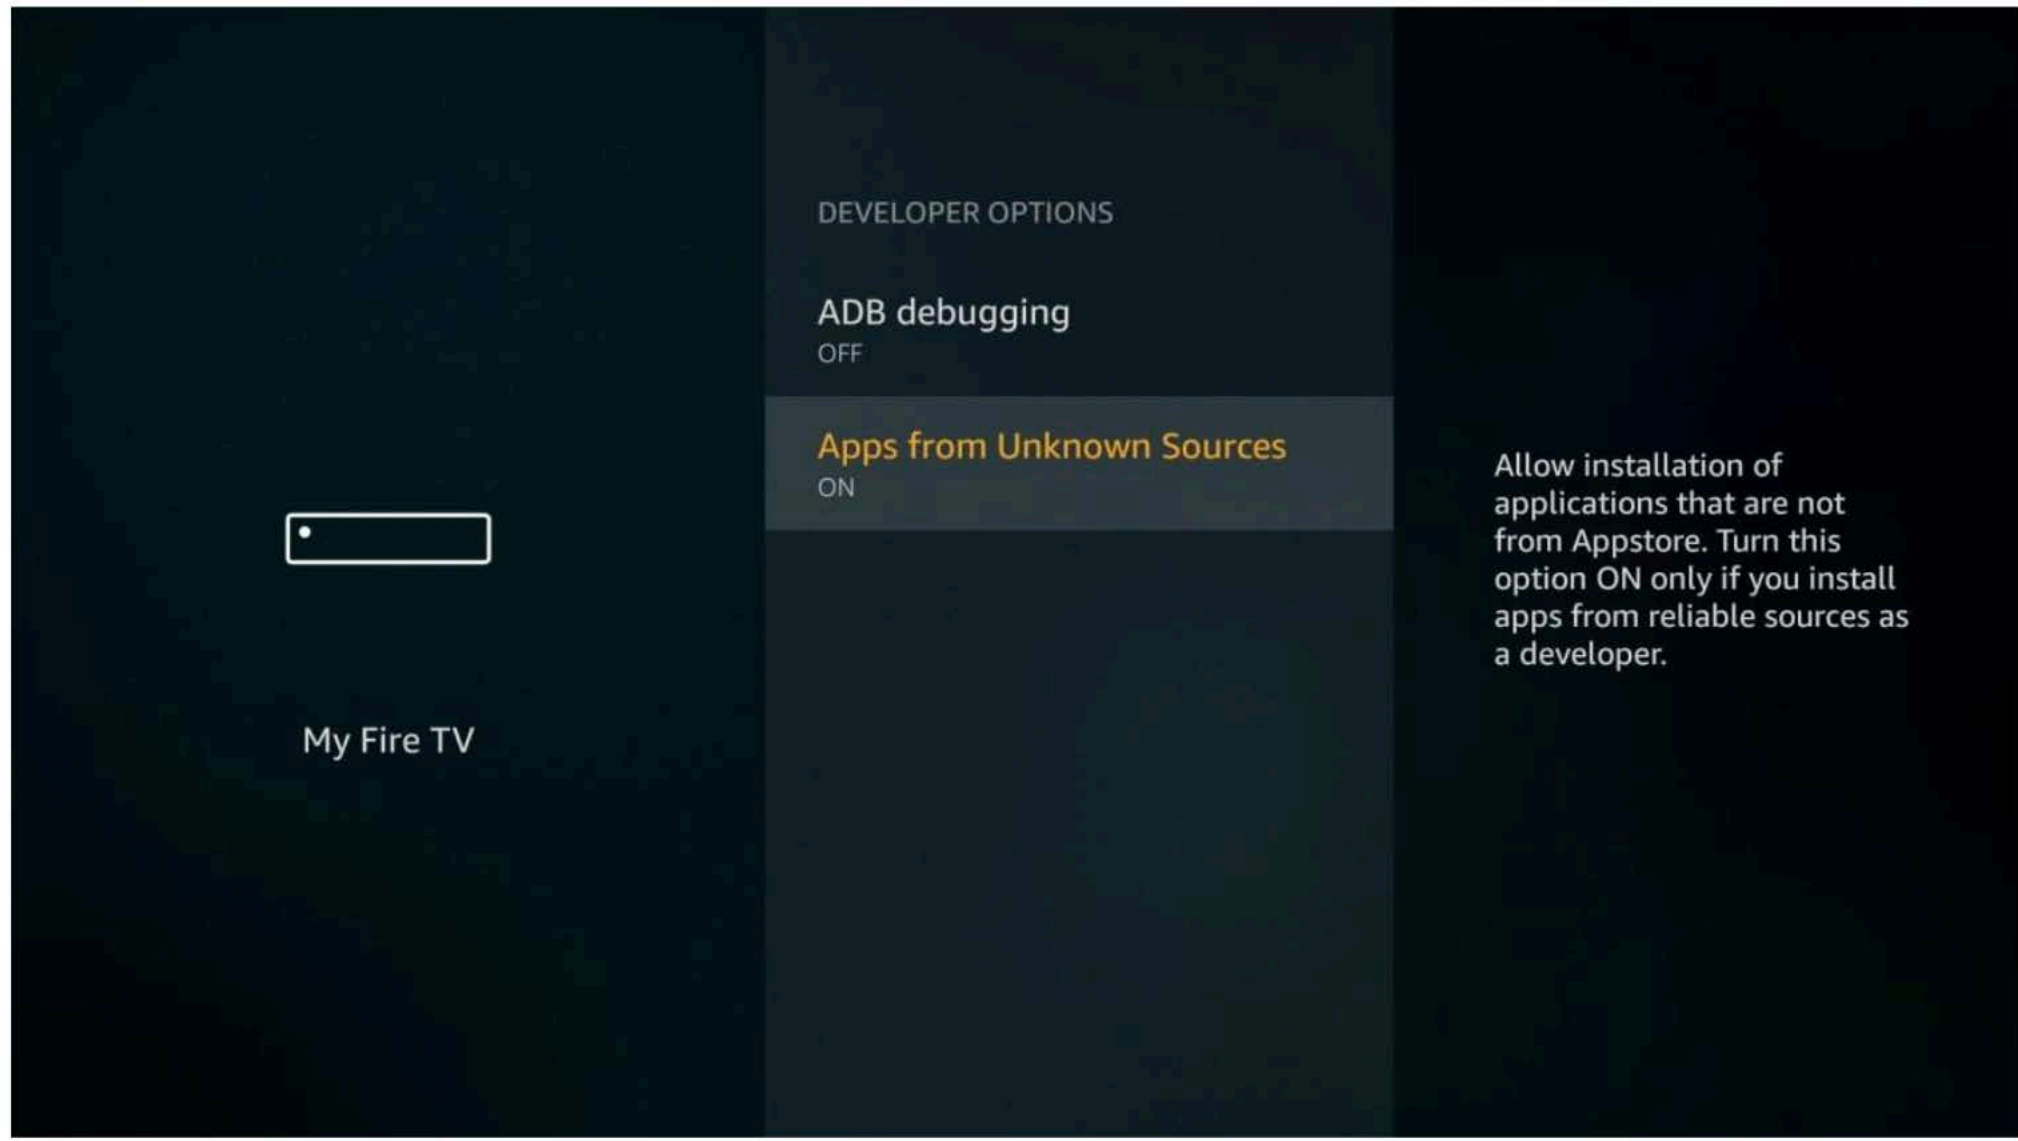

Enable ADB connections over the network.

STEP 3: Enable Apps from Unknown Sources

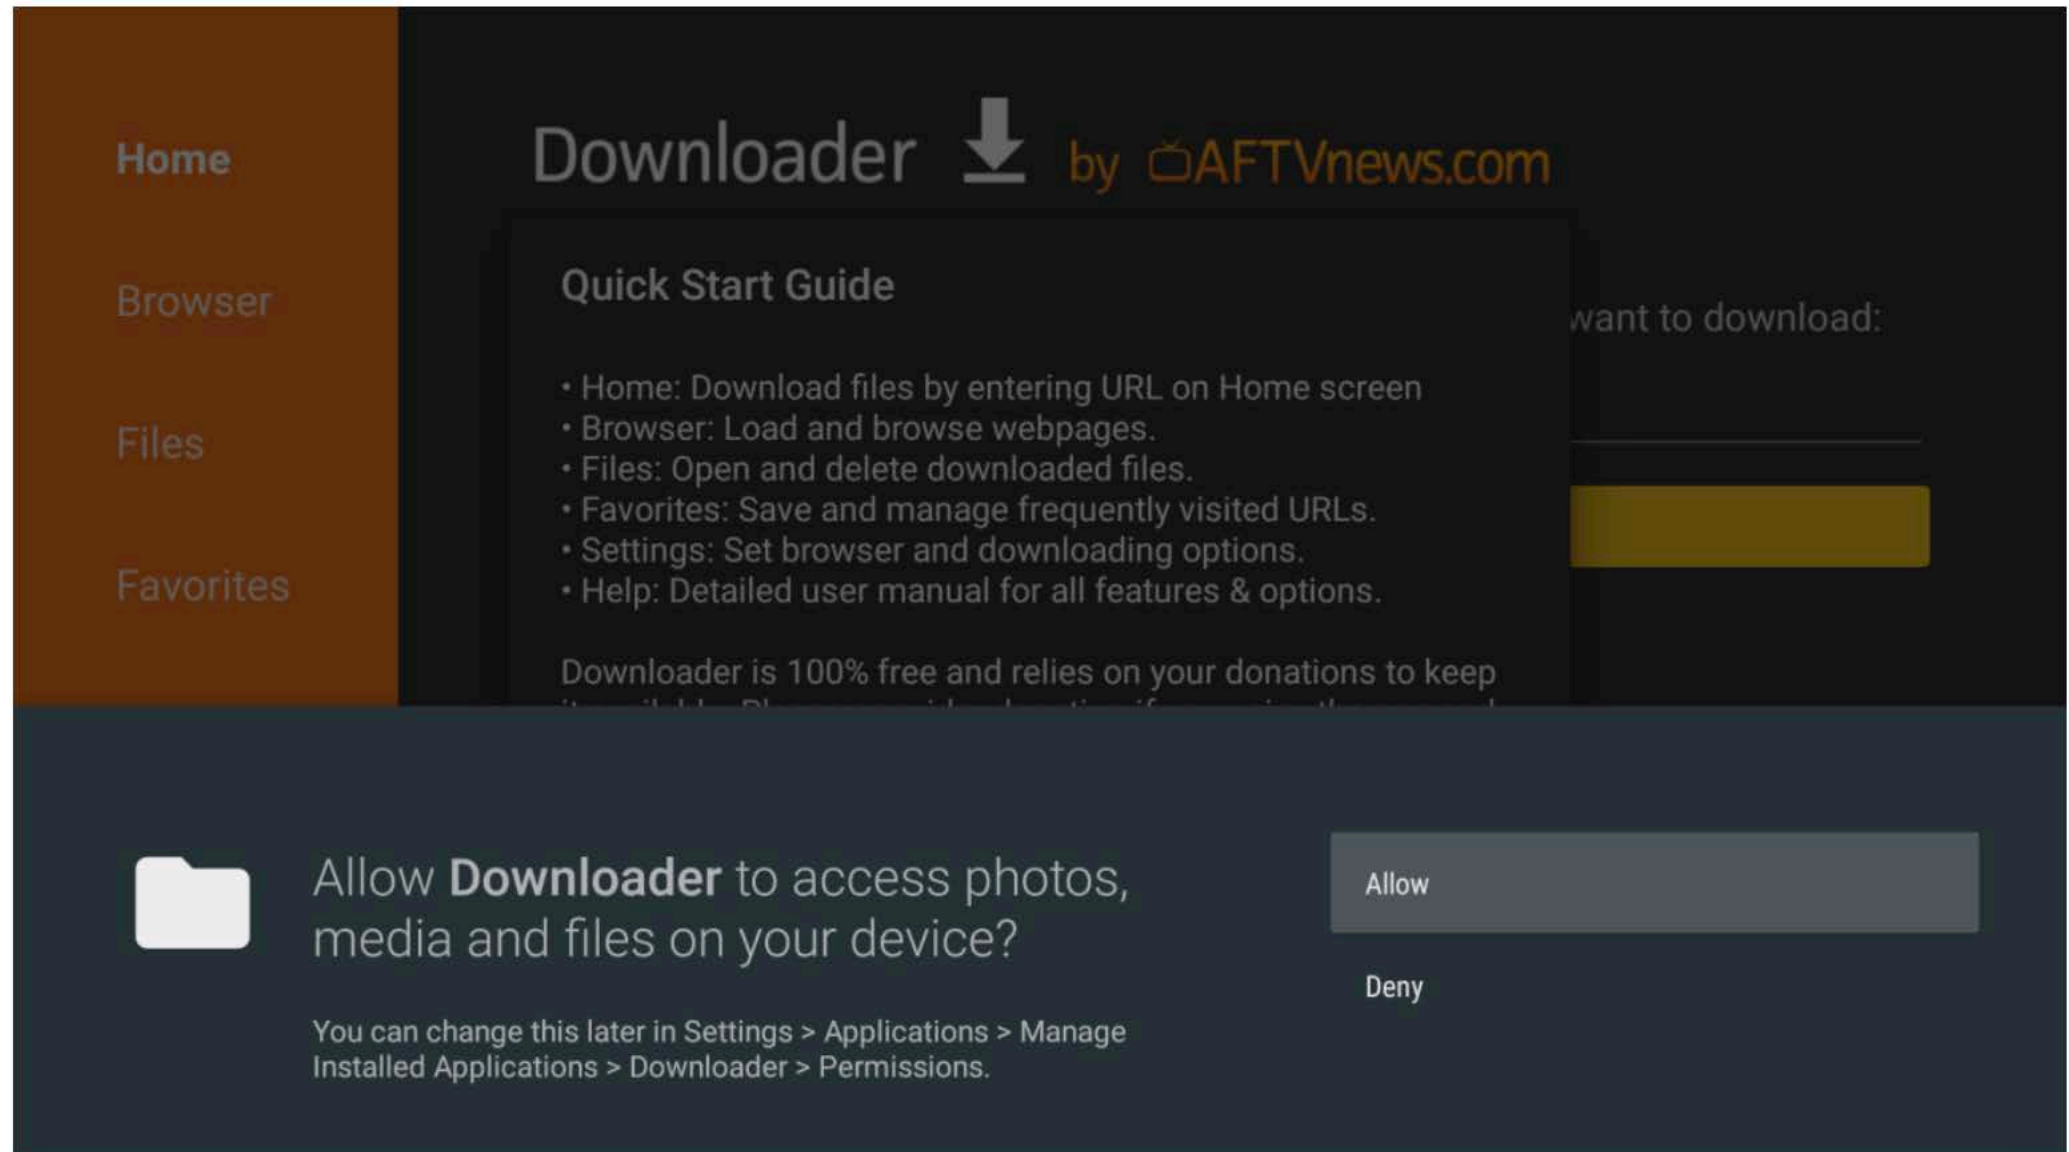

If you have a Fire TV Cube 2nd Gen, Fire TV Stick 3rd Gen, Fire TV Stick Lite, Fire TV Edition televisions by Grundig & JVC, or 2020 Fire TV Edition televisions by Toshiba & Insignia, select the '*Install unknown apps* option,' scroll to *Downloader*, and change its setting to "ON".

If you have a Fire OS 5 or Fire OS 6 device, including all other devices, select *Apps from Unknown Sources* to change the setting to *ON*.

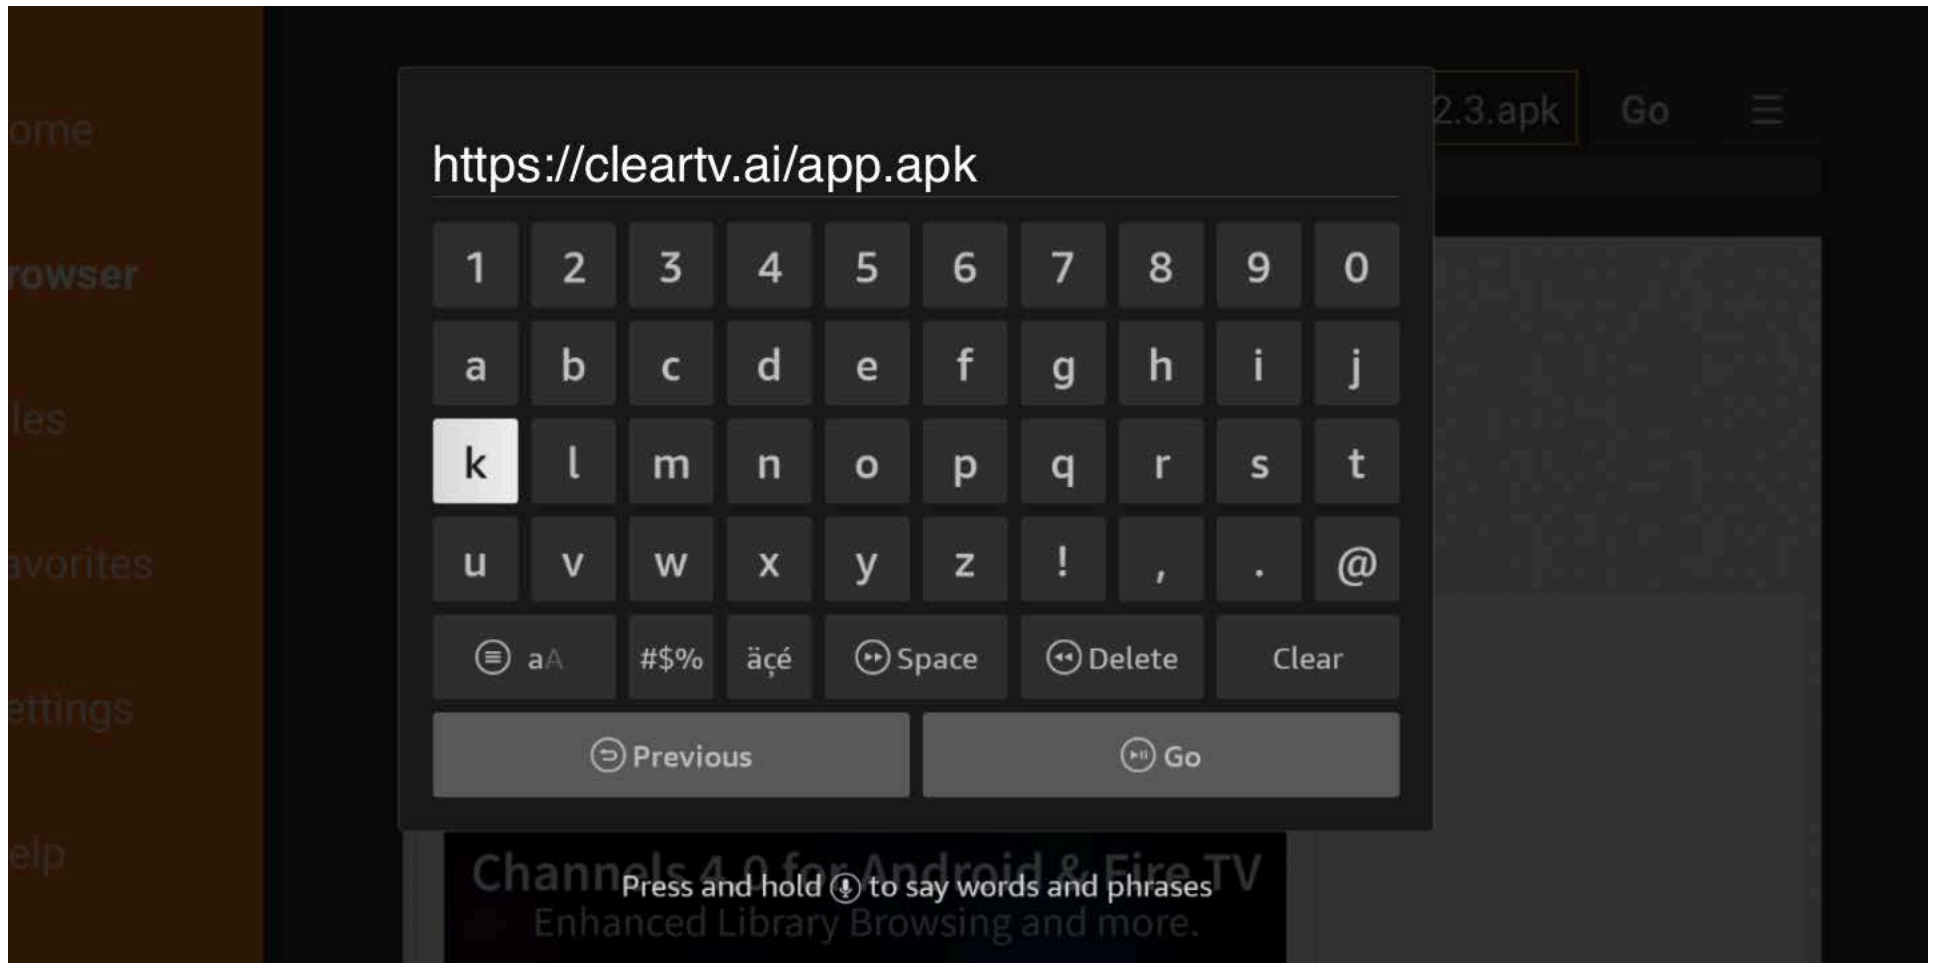

Now, go to your list of apps on the Fire TV Home screen and open the Downloader app. If you have a Fire OS 6 or Fire OS 7 device, you will be asked to allow Downloader access to files on your device as soon as you launch the app. Select *Allow*.

STEP 5: Enter URL and Download the Clear TV APK file

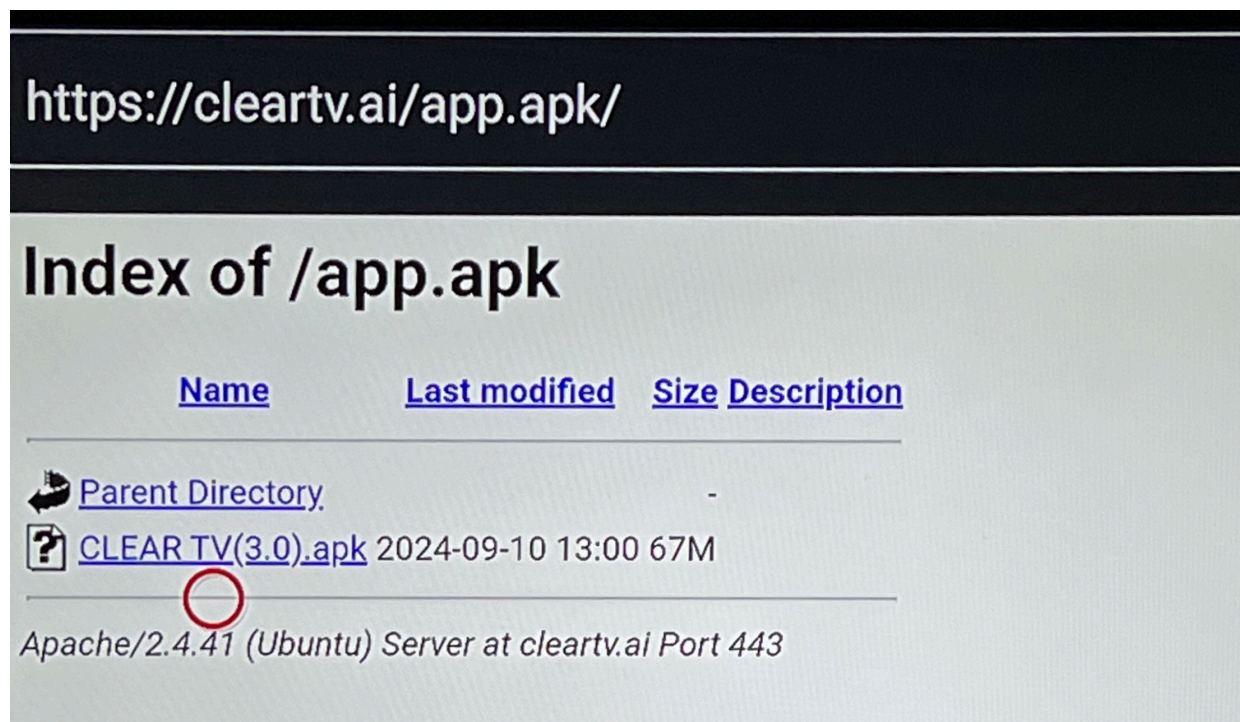

Enter the Clear TV URL to sideload the Clear TV APK and select the *Go* button.

<https://cleartv.ai/app.apk> Because the URL is direct to the APK file, the file will begin to download. Use the circular UP/DOWN/LEFT/RIGHT buttons to find or enter the download link and click it by using the center select button on your remote.

If this page shows up during the download process, please click on the link that says **CLEAR TV(3.0).apk**

STEP 6: Install Clear TV APK

After the APK file downloads, you will be asked to install the app. Press Down and Right on the remote a few times until the *Install* button is highlighted. Press the center Select button on the remote to begin installing the app and select *Done* when it's finished installing.

Do you want to install this application? It does not require any special access.

CANCEL INSTALL

STEP 7: Open the Sideloaded Clear TV App

You're done and you can now launch the Clear TV app. To do so, go to your list of apps by pressing the home button on your remote control and selecting the *Apps* option. You will see the Clear TV app, go ahead and select it.

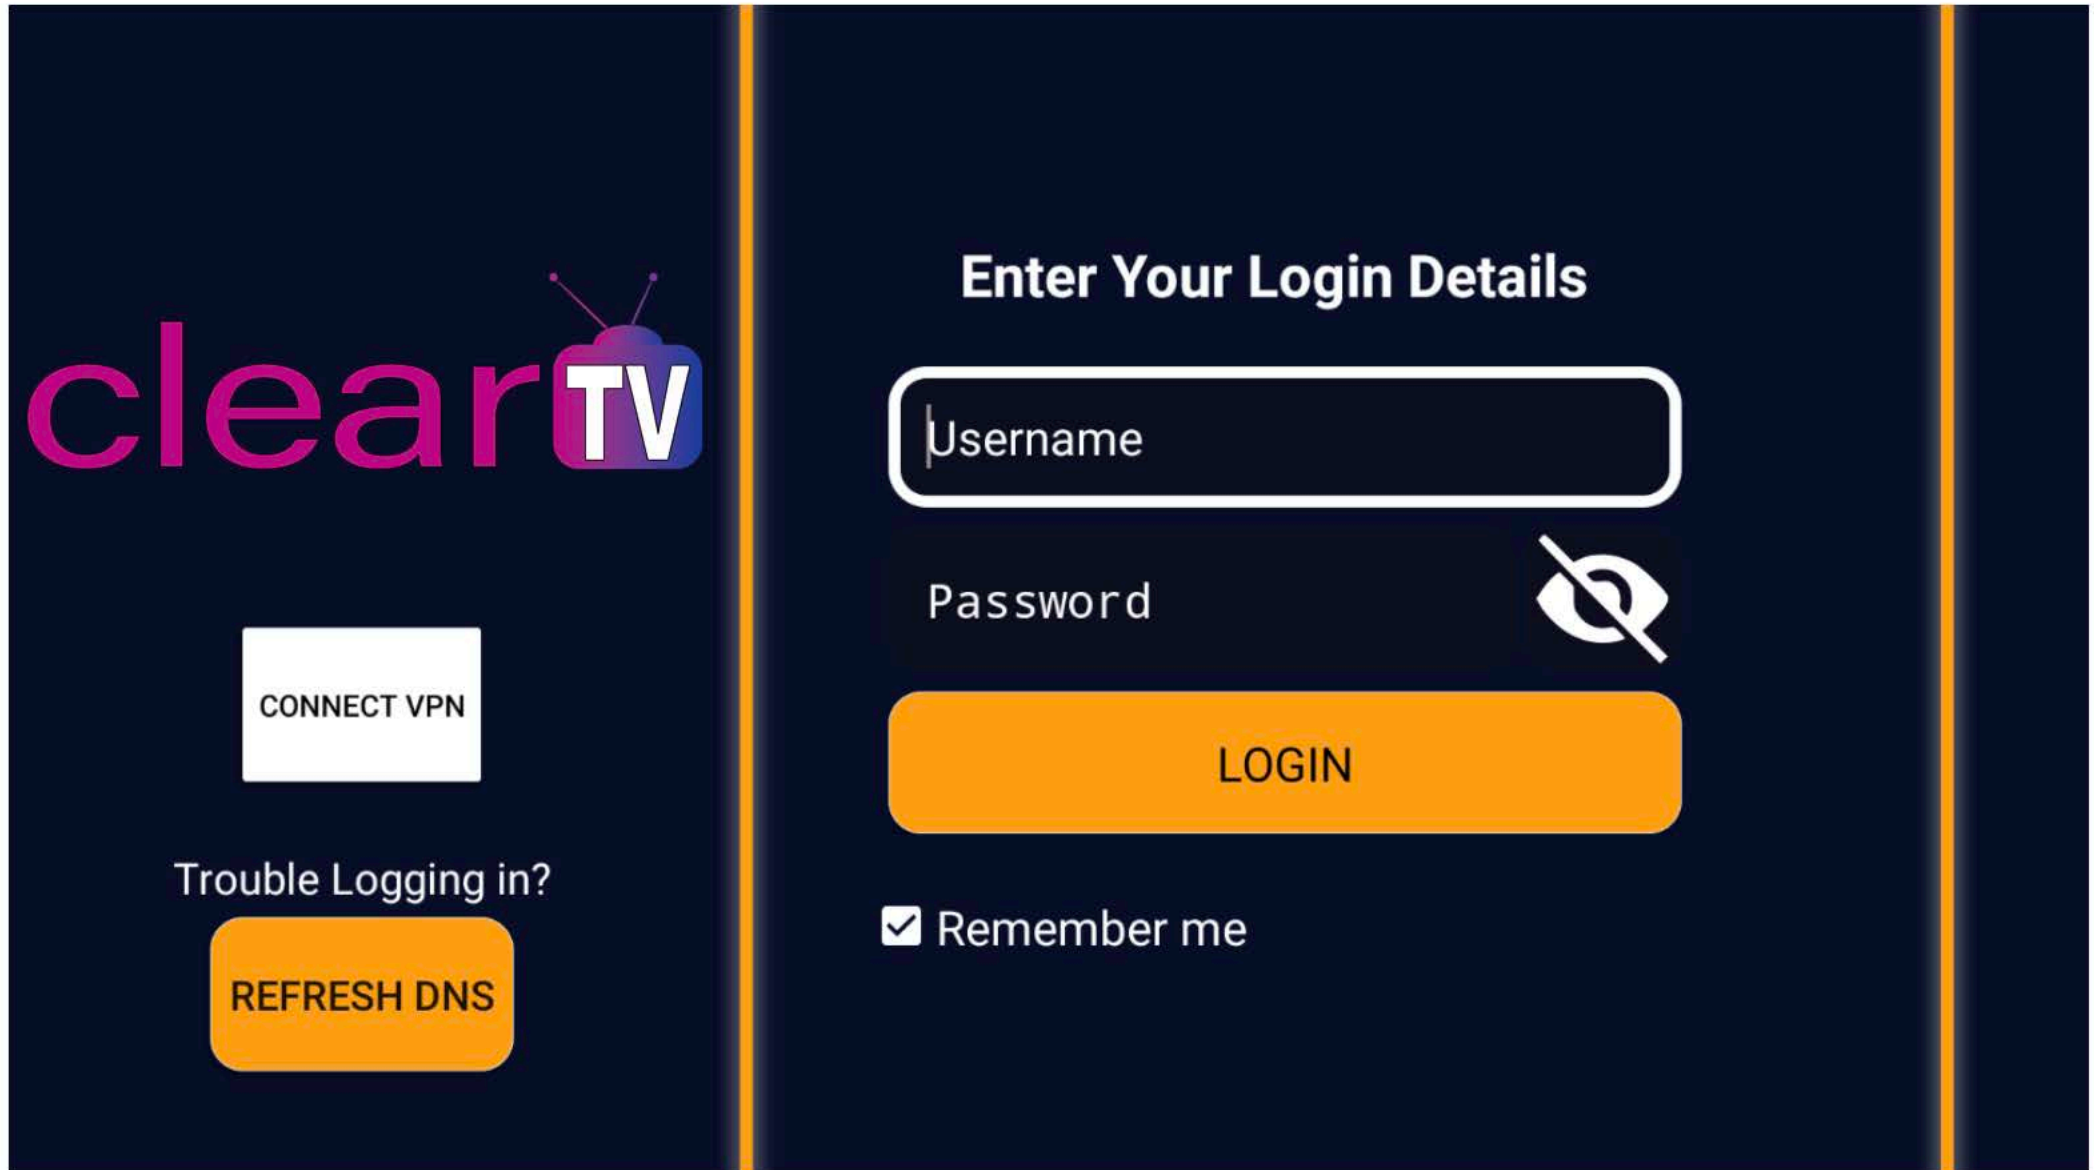

The two options that you can set before logging in to the platform are as follows:

- Connect VPN
- Refresh DNS

OPTIONAL - Connect VPN (Virtual Private Network)

Our VPN option is a great choice when for example your ISP is preventing you to watch IPTV. Using this option will allow you establish an encrypted connection from your internet to our Platform bypassing ISP restrictions. We don't recommend using a VPN connection if you don't face connectivity issues to our platform. **If you don't face any connectivity issues, please go to Page 16.**

1. Tap the following button to connect to a VPN.

2. Tap the **(+)** button to add a new profile.

3. There are two 2 ways to add your VPN certificate file:

- **URL**

Use this option if you would like to add the certificate file via inserting your certificate URL. Tap the **IMPORT** button once done.

- **FILE**

Use this option if you would like to locate your certificate file from the internal storage of your mobile device. Tap the **BROWSE** button to locate the file.

OPTIONAL - Refresh DNS (Domain Name System)

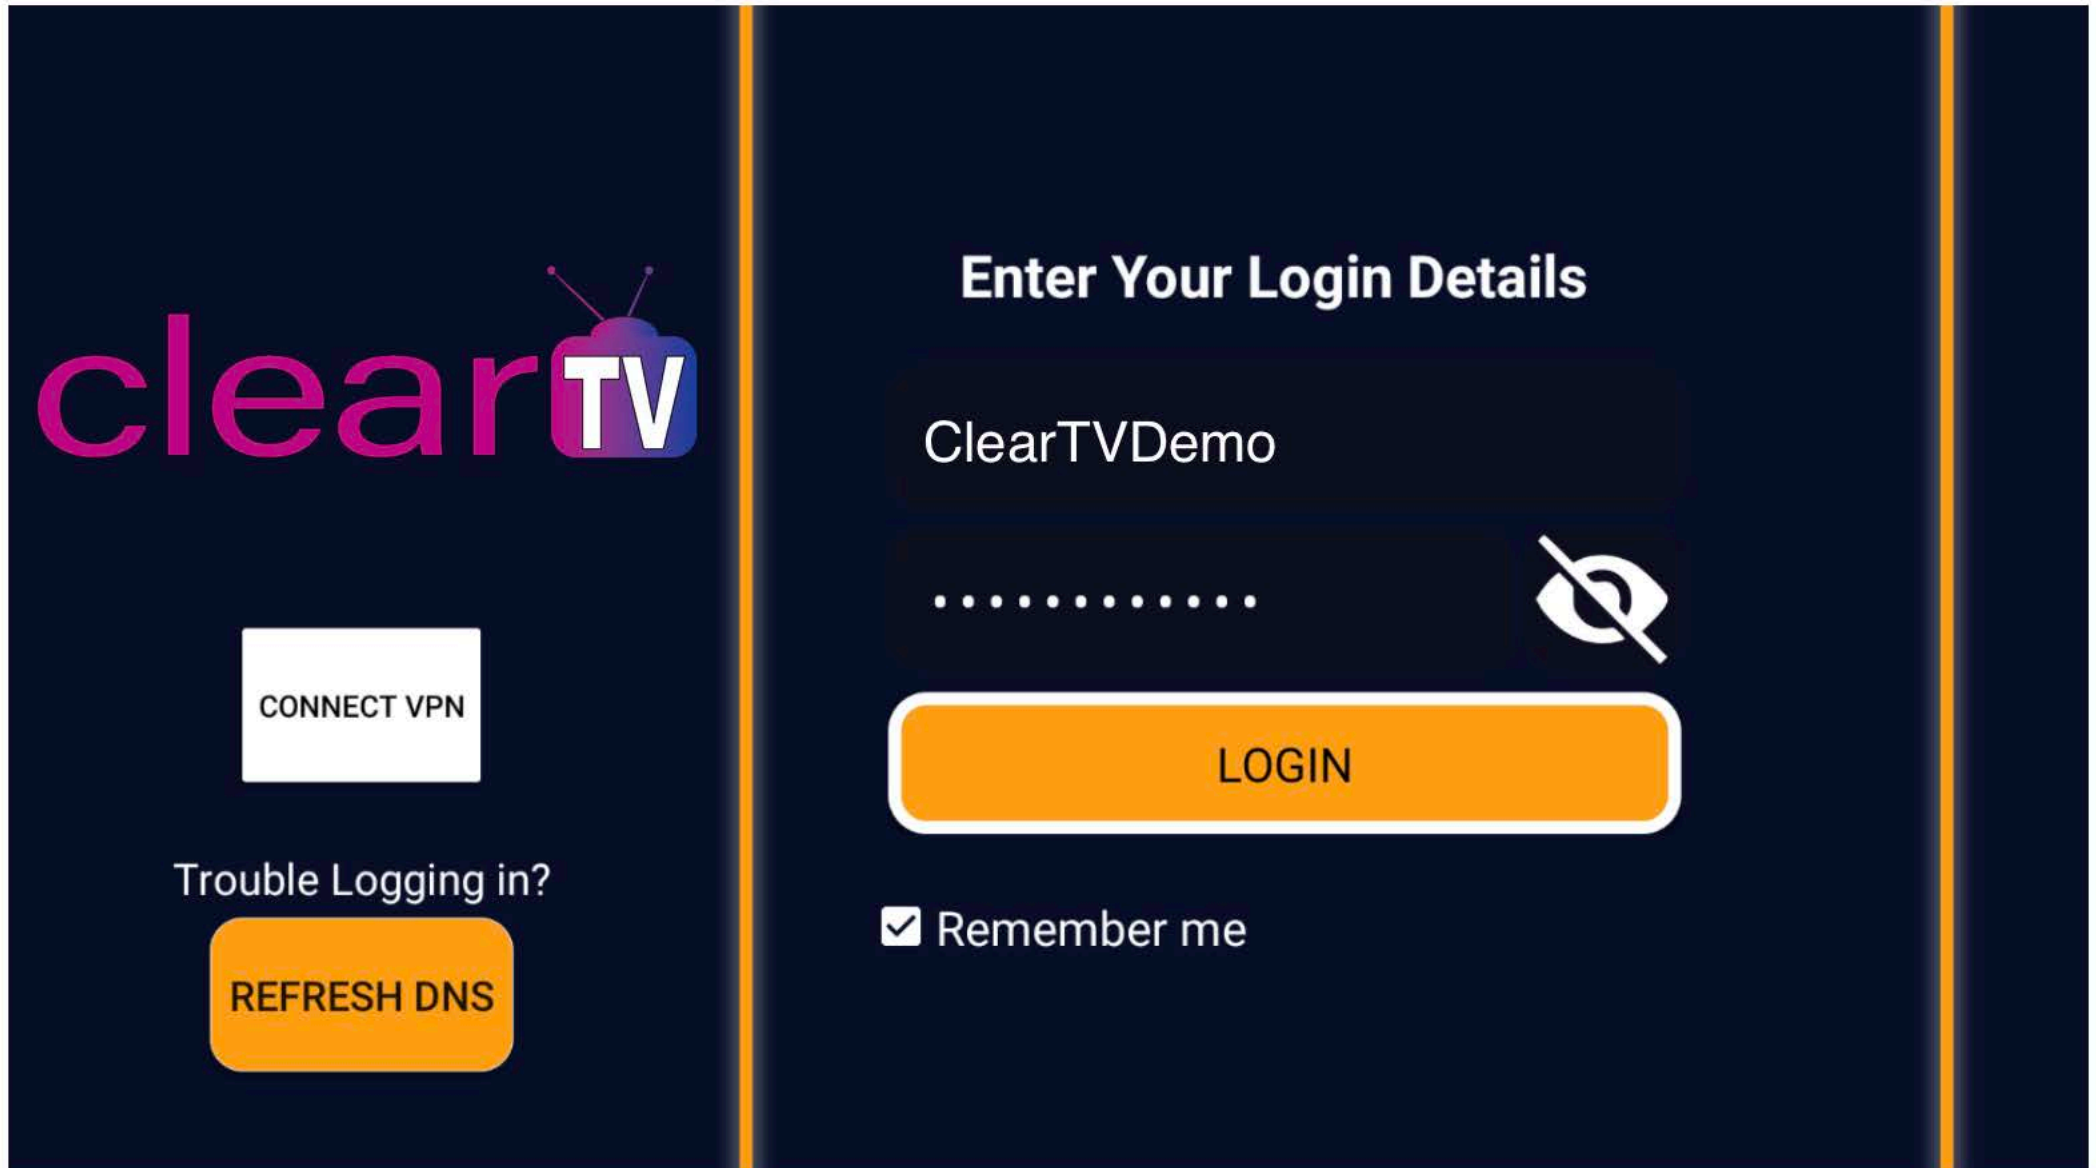

Clearing your DNS will help you to avoid any problems with internet connectivity and security.

You can use this option if the IP addresses or other cached information is causing trouble for logging in, as well as refreshing it so that everything works smoothly again!

1. Tap the following button to **refresh DNS**.
2. Enter log-in details by typing in your username and password details provided to you after the purchase.

3. Login

4. After you have registered and created an account on our website, you are now ready to use it for the first time.

Immediately after login, a white screen appears saying 'Please wait, while we are getting things ready for the first time' and 'Downloading Channels, Movies and Series'.

After the channels, movies and series have downloaded, then the TV Guide also downloads.

Please wait, while we are getting things ready for the first time

Downloading TV Guide

After that it takes you directly to the home screen.
