1 About Smart-STB application

Smart-STB (Set-top app) is an Android application that can be installed on Samsung or LG Smart TVs. This app enables you to have IPTV service (i.e., **CLEAR TV**) on a portal similar to a classic STB/MAG box with all characteristics that can be expected from a Cable TV provider.

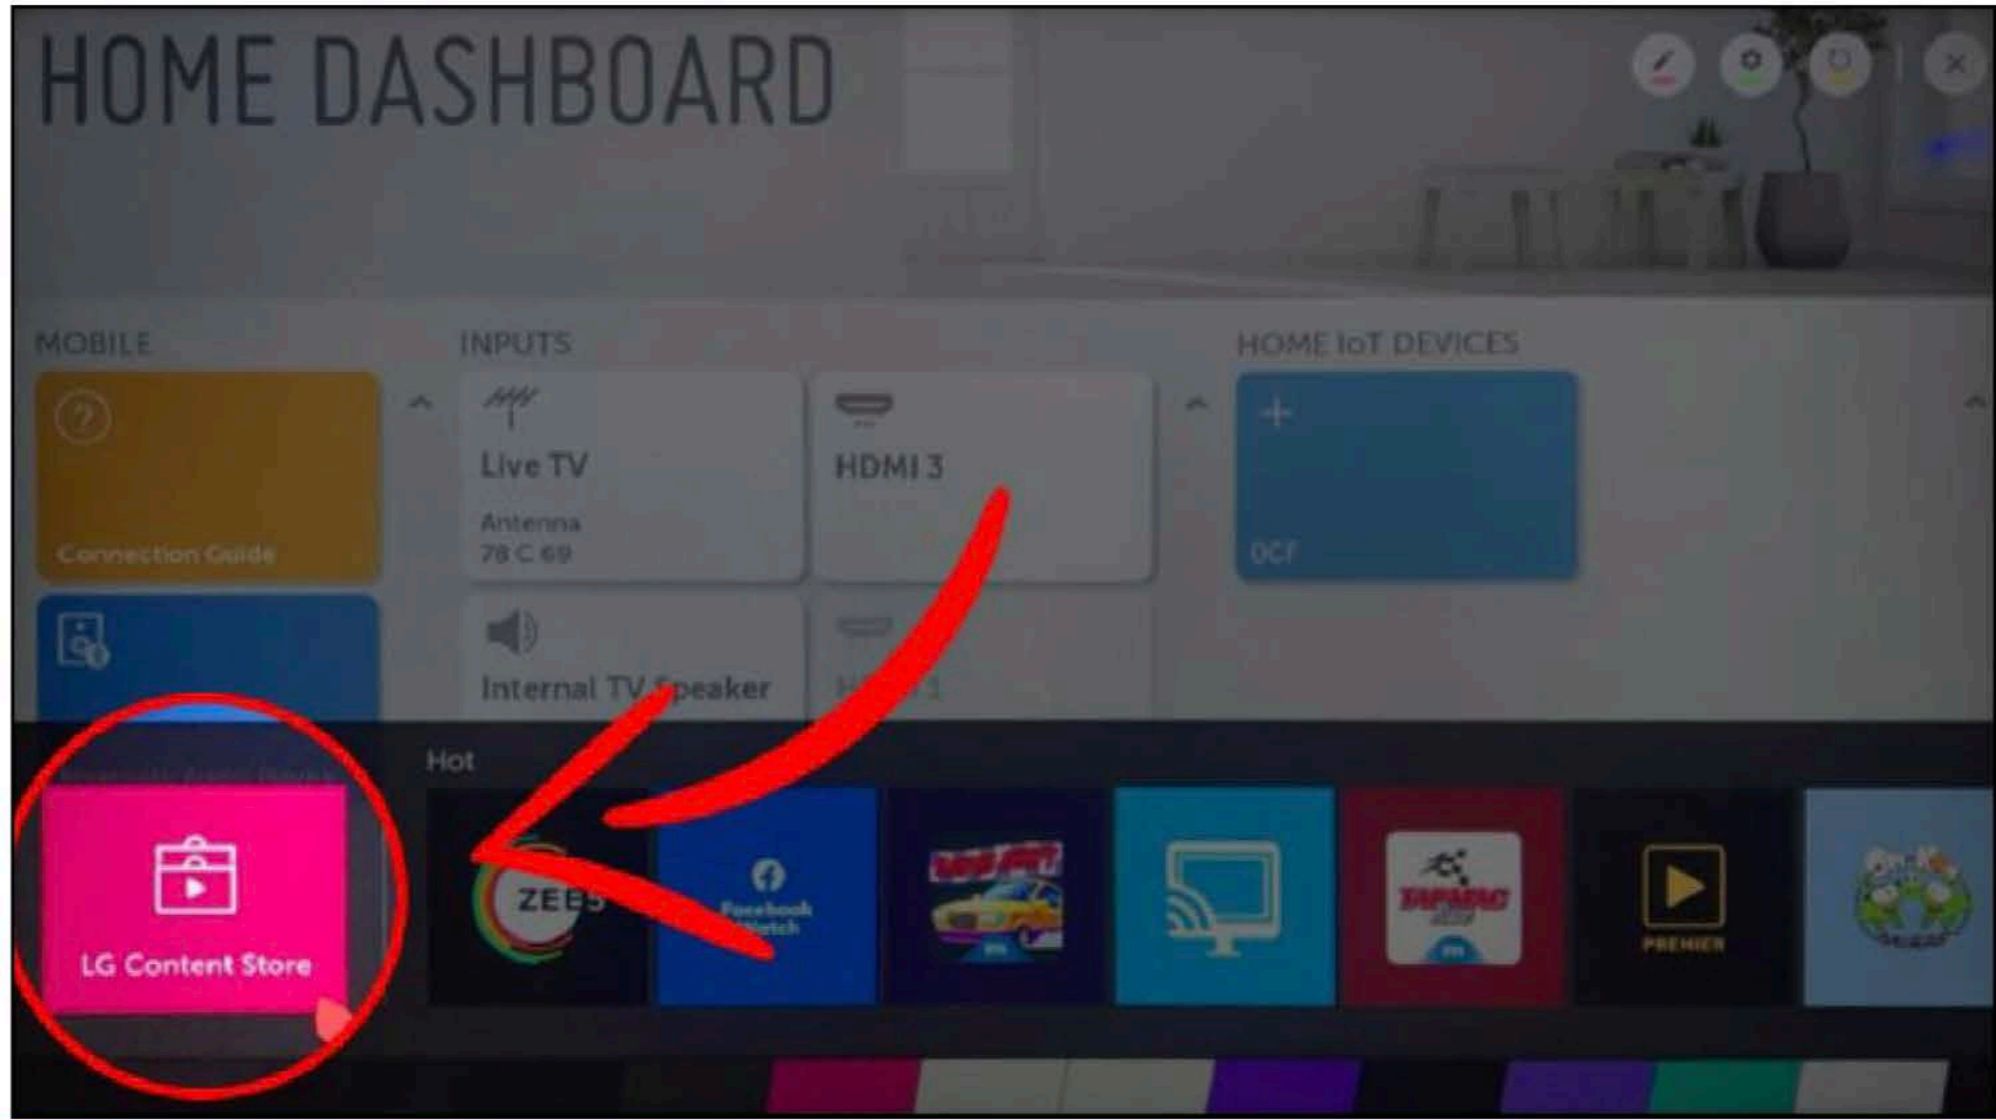

2 Installation

For better streaming quality experience, we highly suggest you use a network connection via Ethernet cable (also known as LAN connection) in connecting your Smart TV to your internet box or router. LAN connection provides:

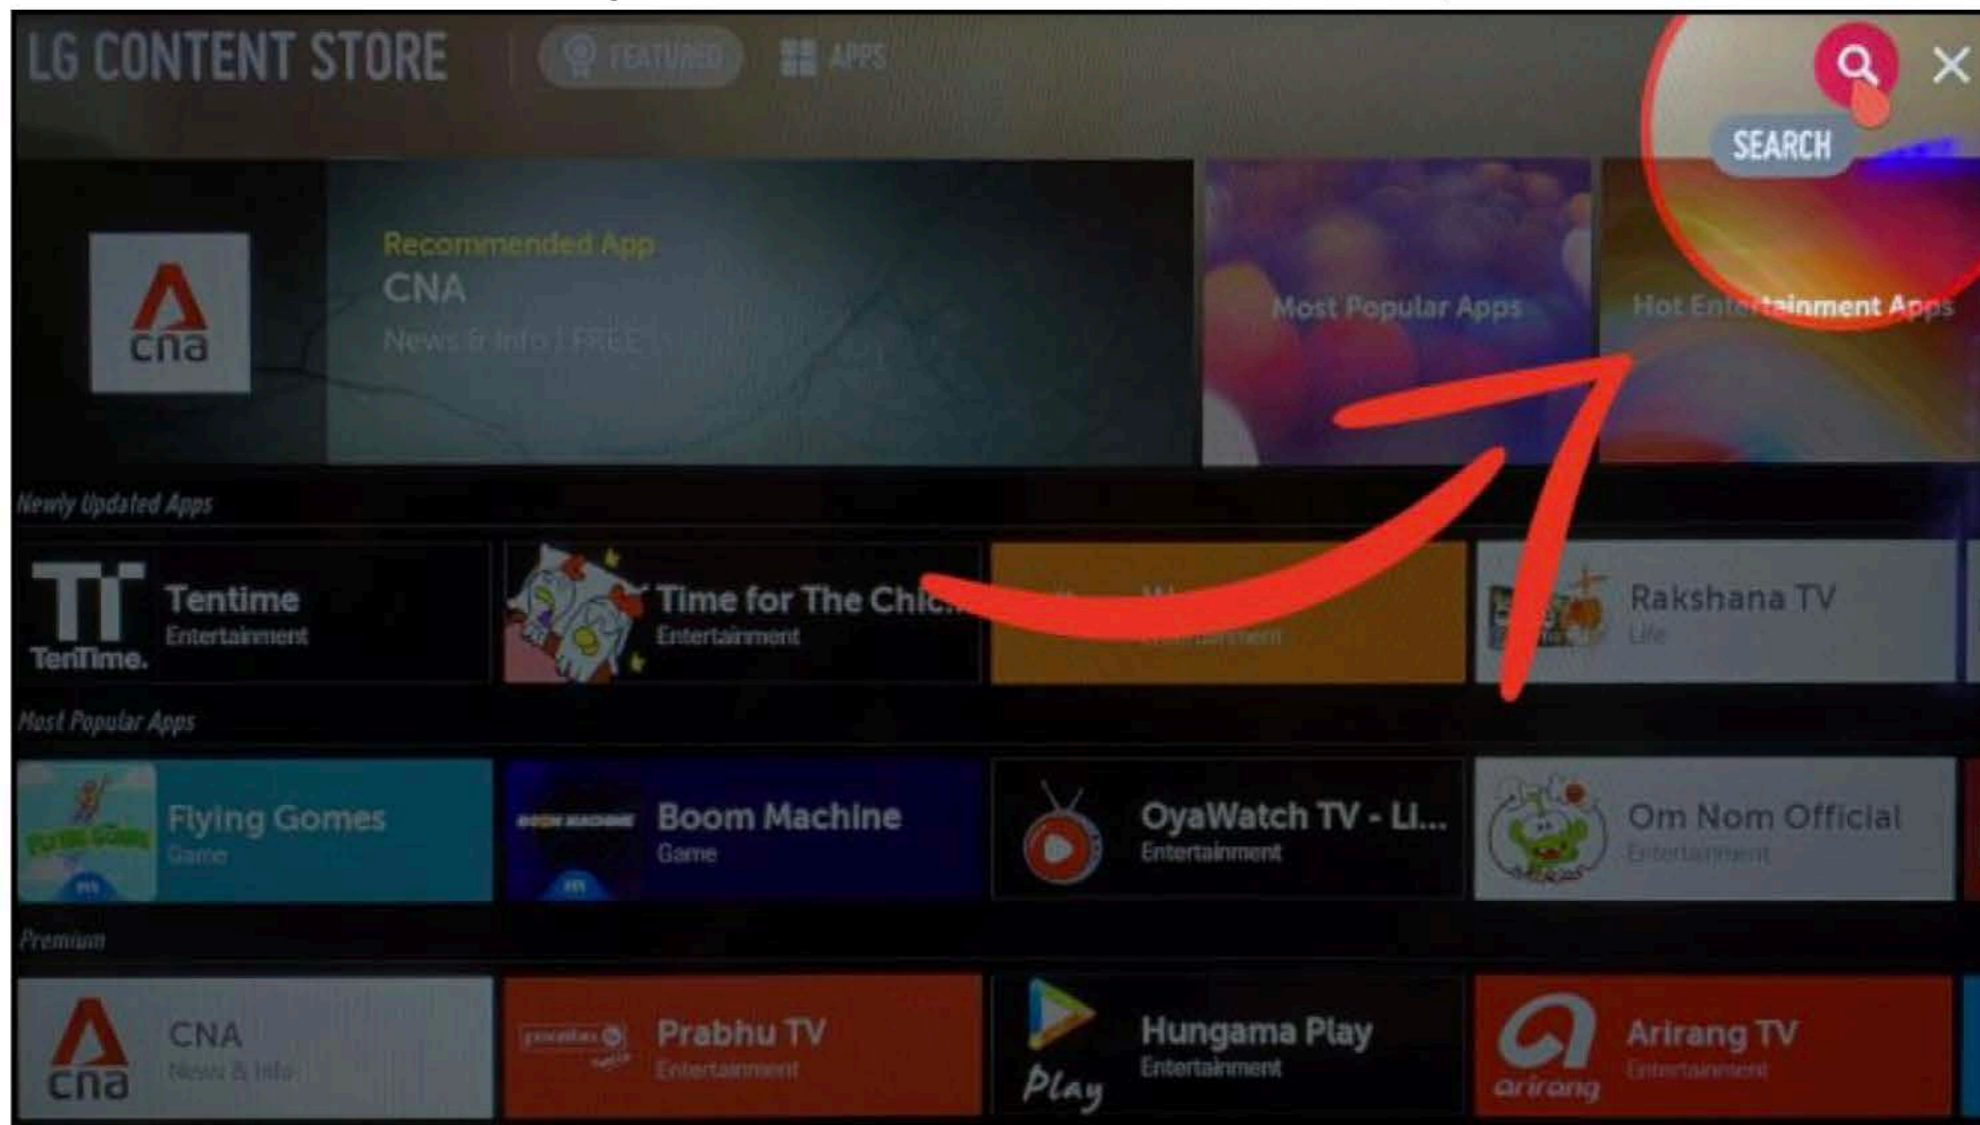

- ▶ **a more stable connection**
- ▶ **higher bandwidth and no latency**

1. Turn on your Smart TV, then open the LG Content Store or Application Store.

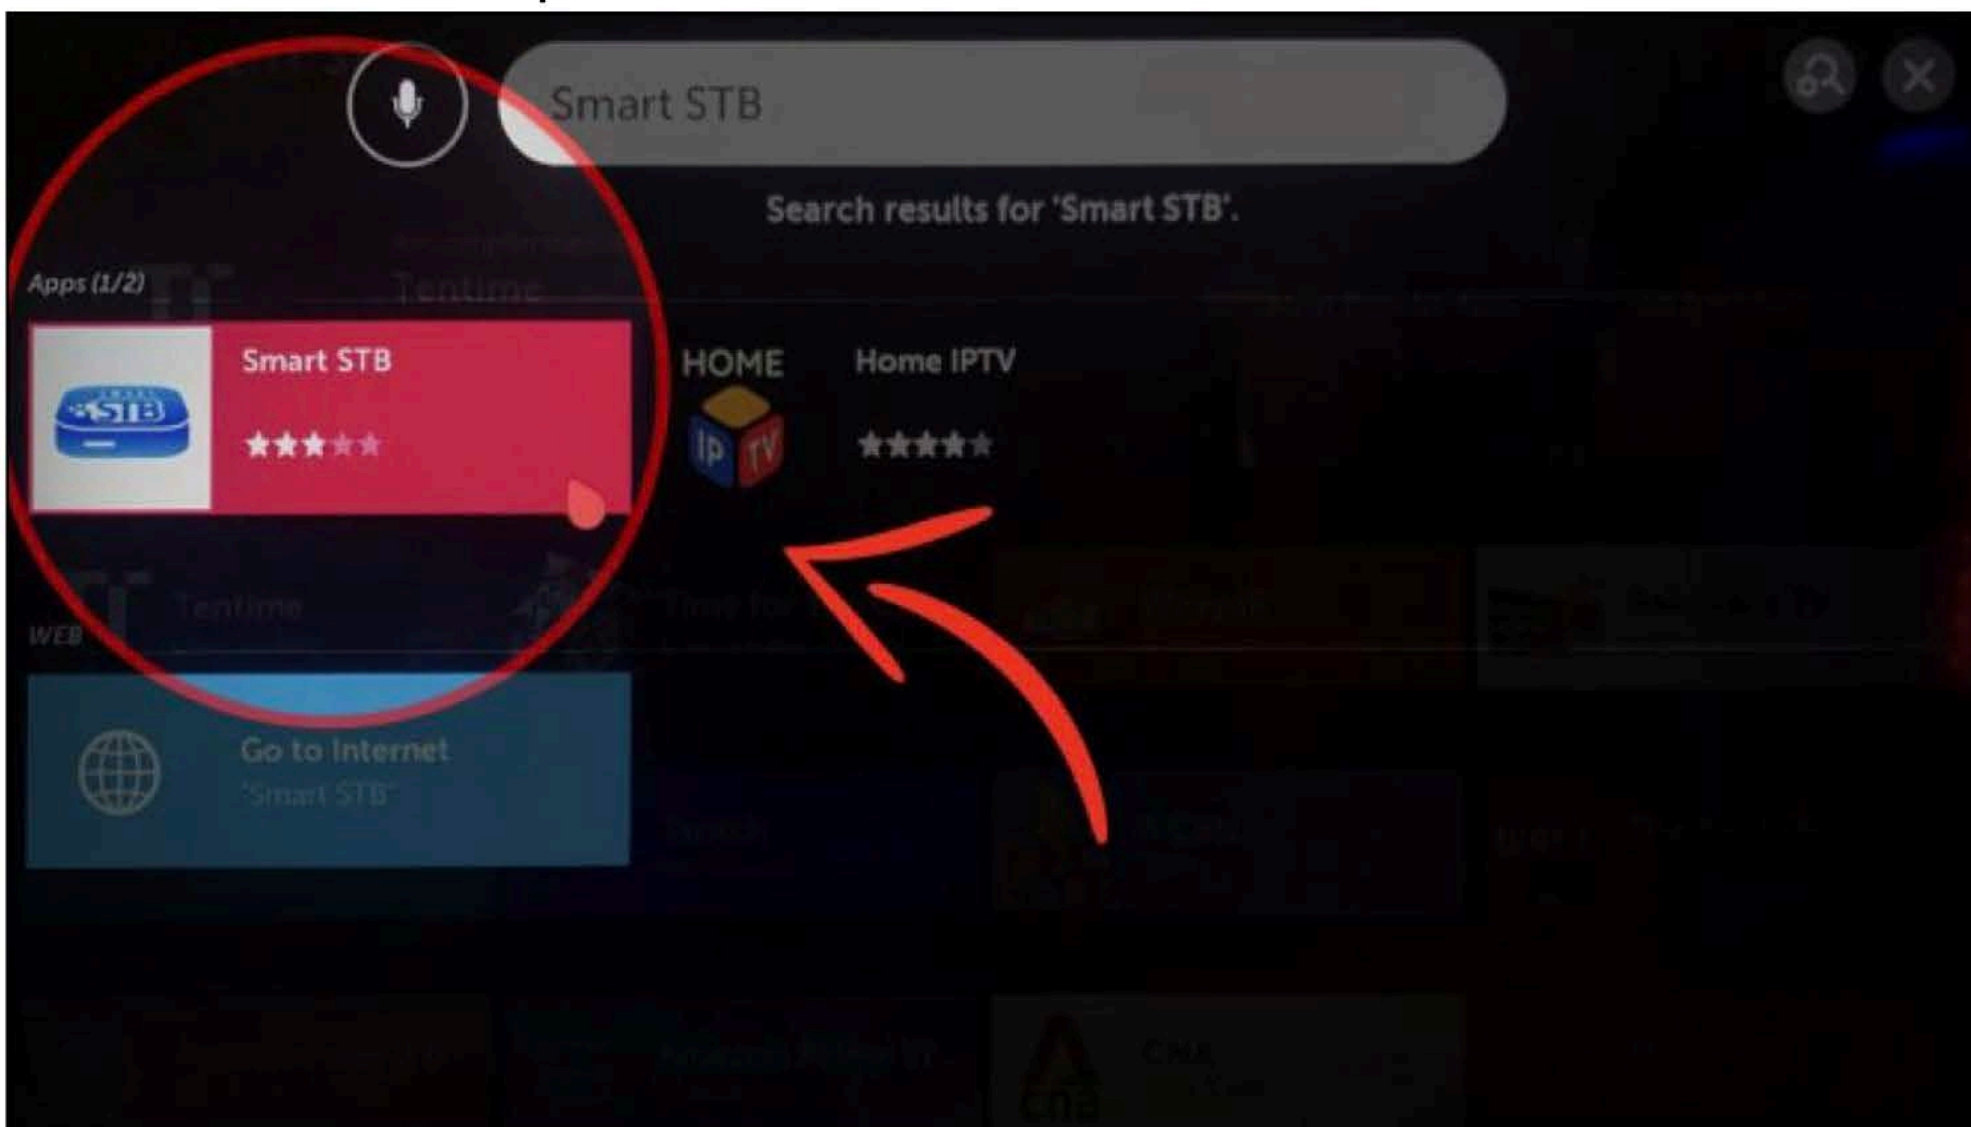

NOTE: This is just an example. Your Smart TV may have a different app store name.

2. Go to the **Search** icon. Input "**Smart STB**" on the search bar, then hit **Search**.

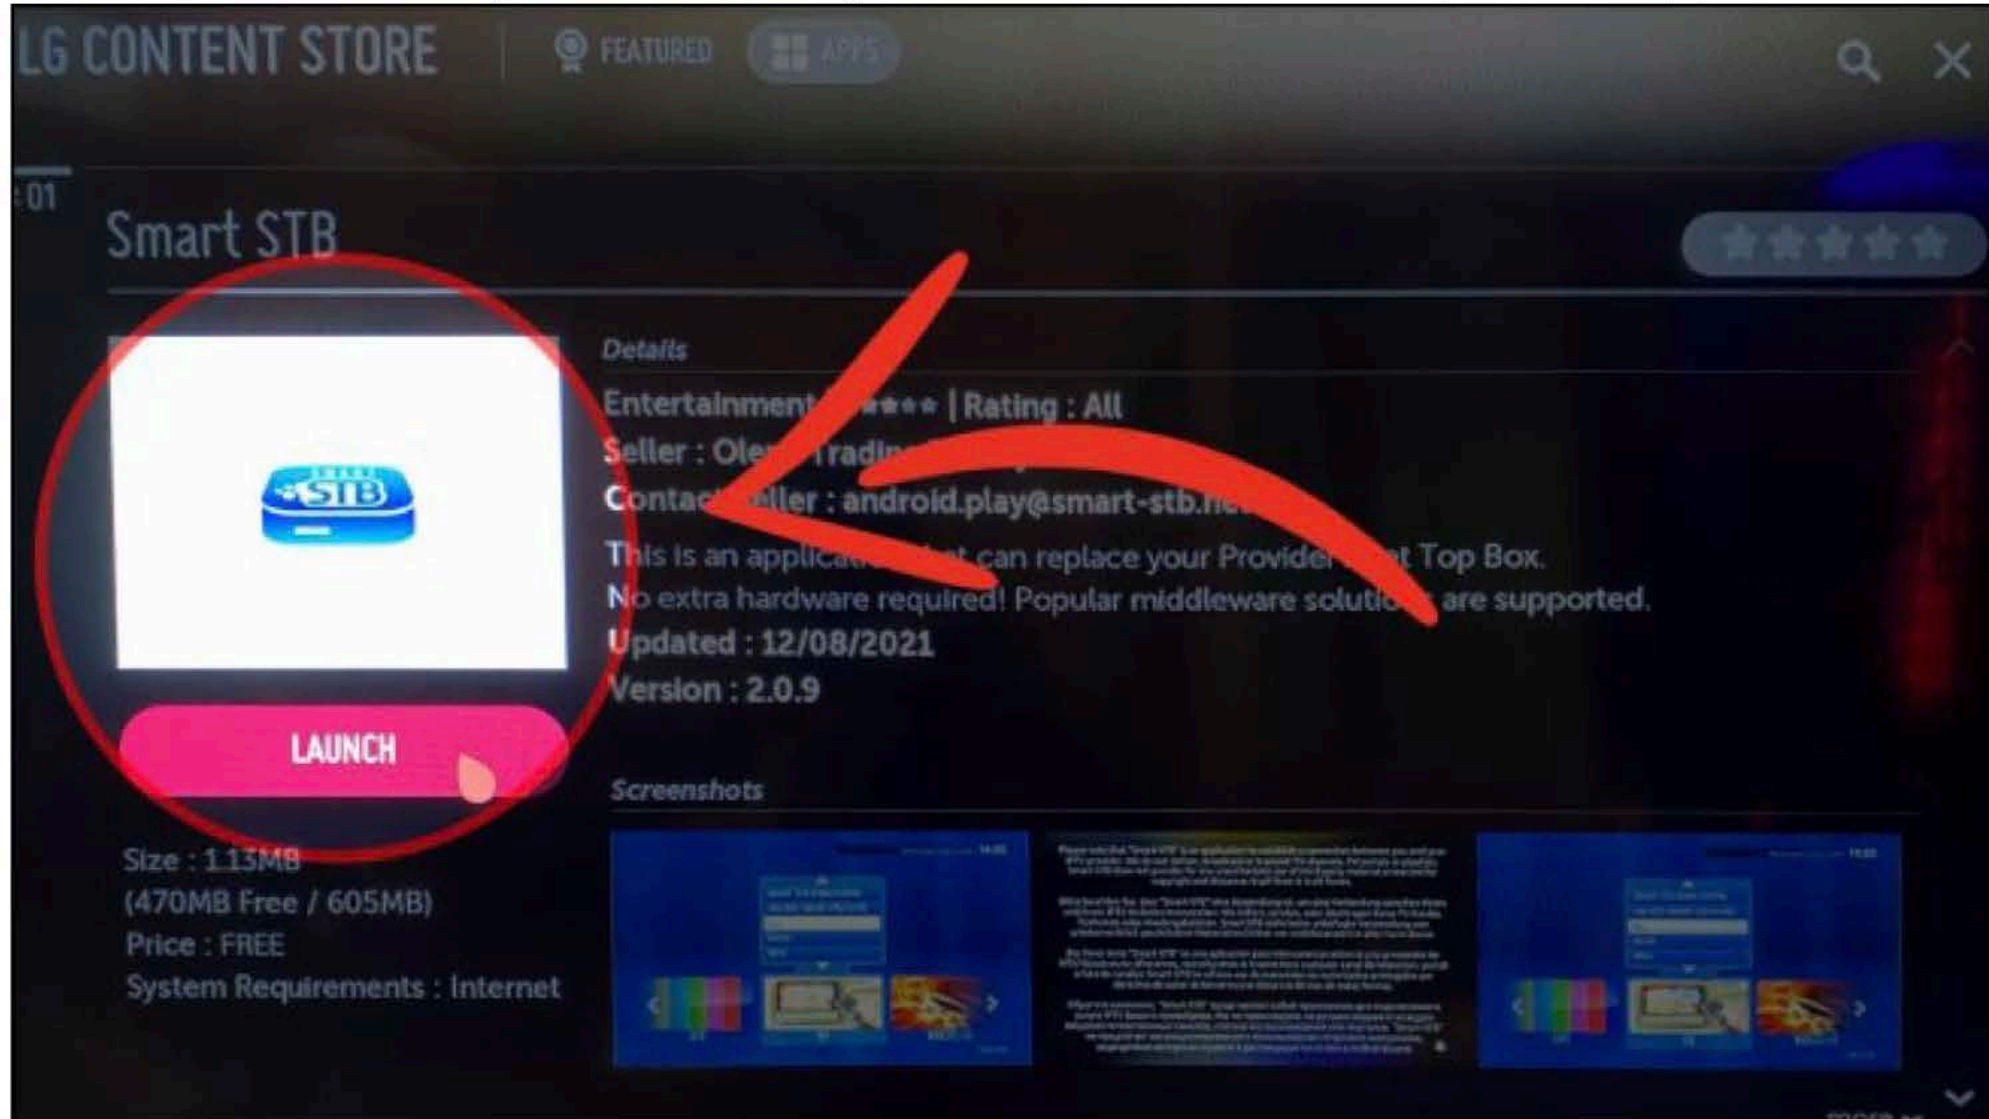

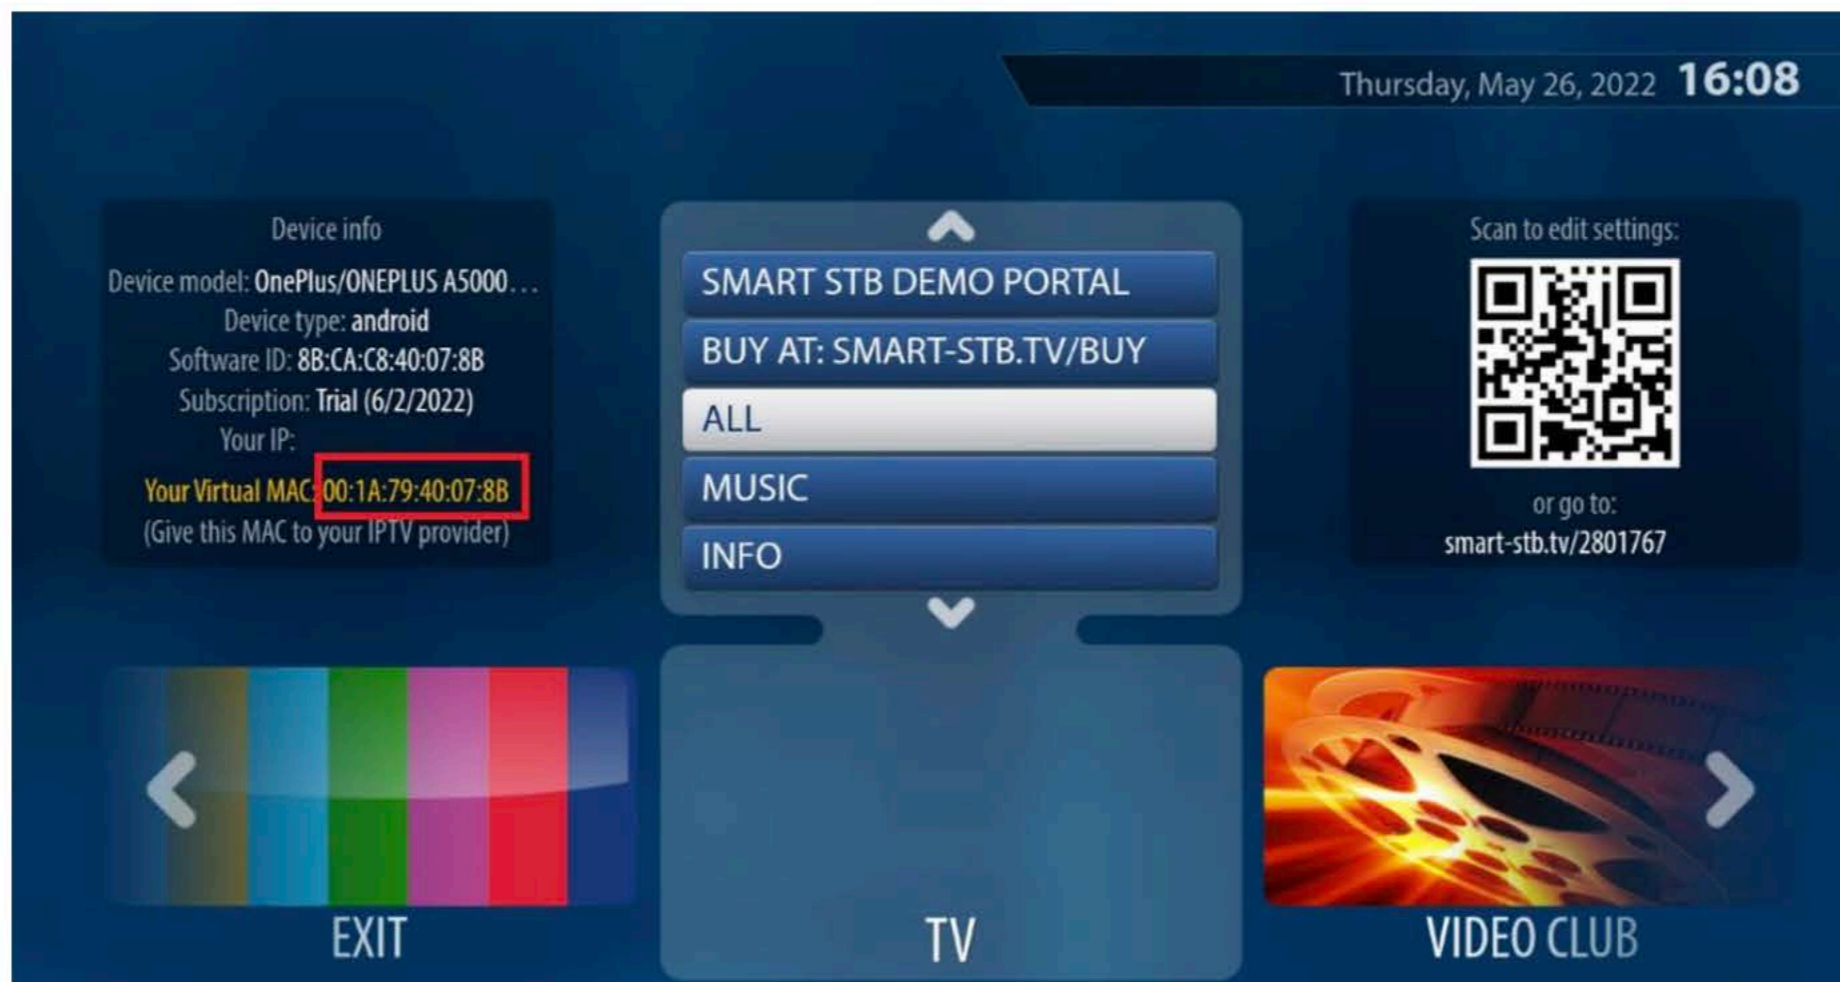

3. When the **Smart STB** app appears on the search result, click on it then hit **INSTALL** to start the installation process.

4. After the installation process is complete, click **LAUNCH** to open the application.

5. Once the “**Loading portal...**” finishes loading, a similar screen will be presented like shown below

6. To allow your Smart TV device connect to the **CLEAR TV** platform, you will require to input the **Virtual MAC address** shown above in red into the **CLEAR TV** order page, once done, select your bouquets and finish the order checkout process.

CLEAR TV *order page – MAG Address*

Additional Required Information

Select Product Type

MAG

MAG Address

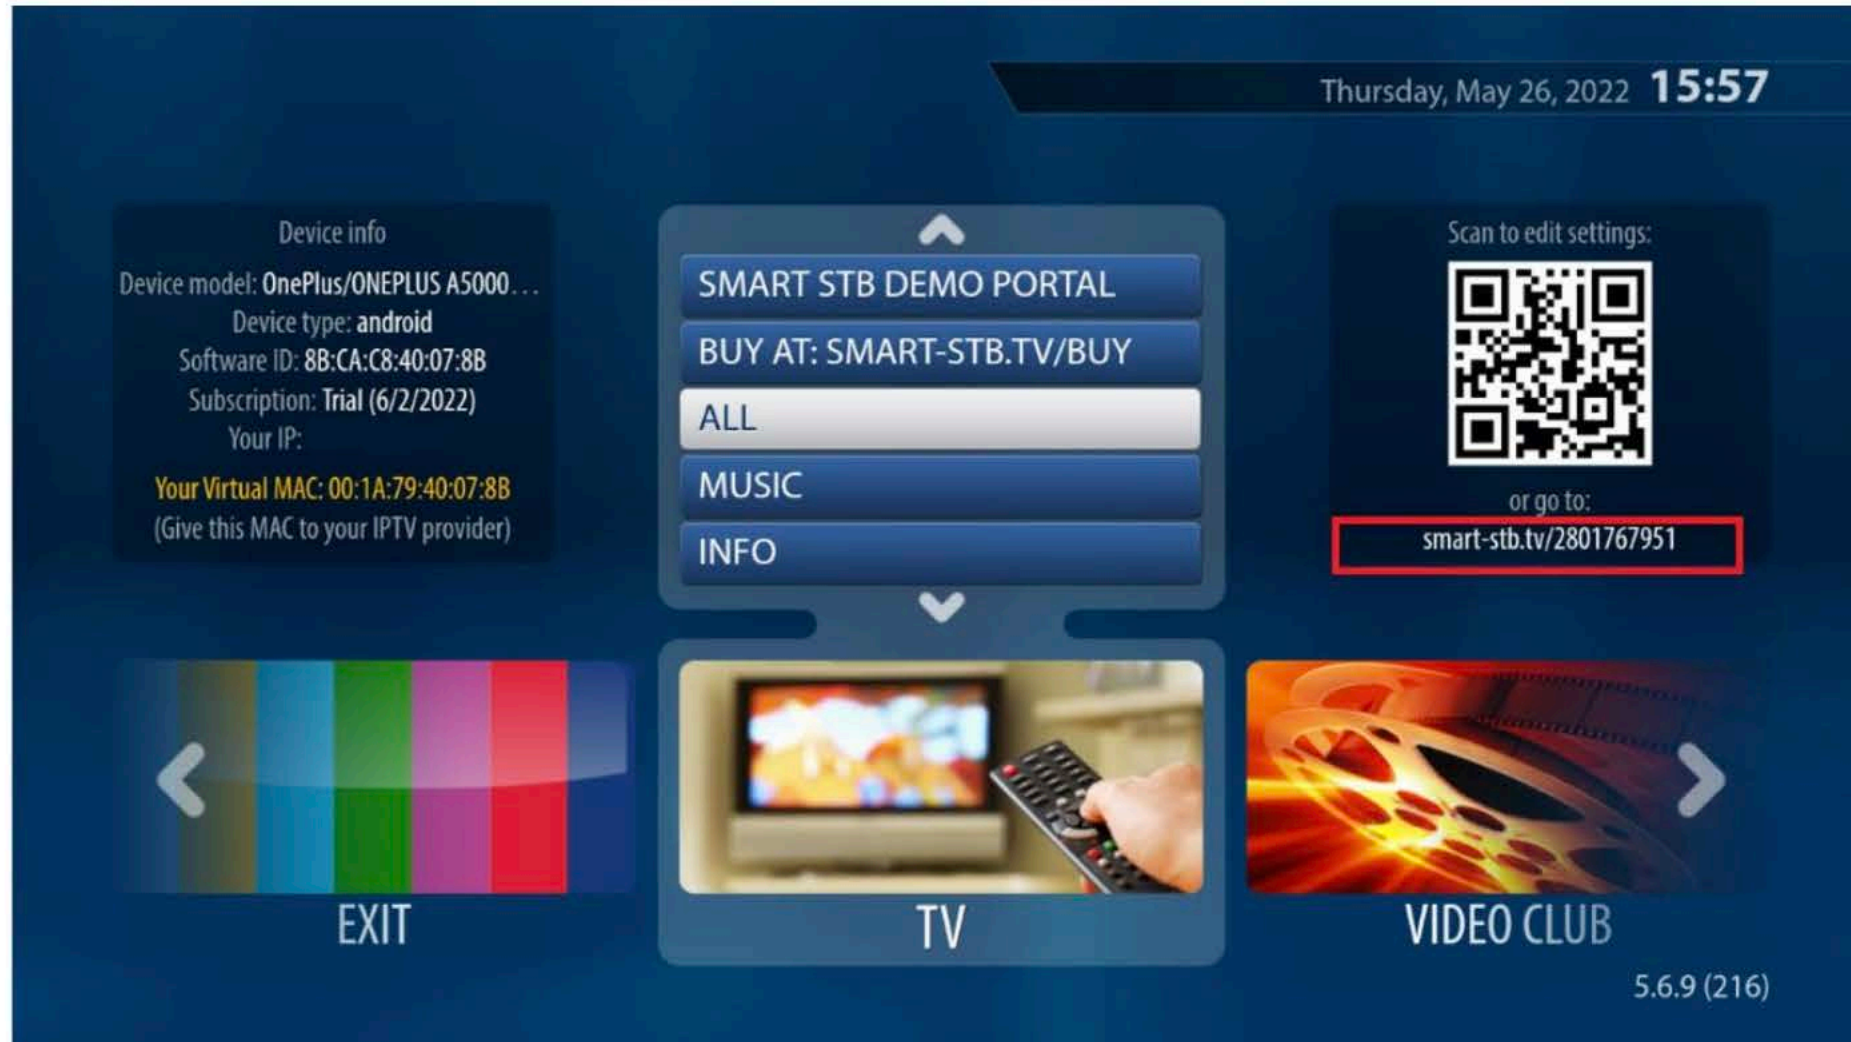

Format 00:1A:79:12:34:5A

Select Bouquets

Leave empty for all bouquets

Select Bouquets

- Once Step 6 is completed, open a browser in your PC or Mobile and copy the smart-stb.tv link you see on the right section of your screen. This will configure the **CLEAR** TV MAG Portal required to load our content.

8. On the smart-stb.tv website, submit the following details:
- 1) Portal Name: **CLEAR TV**
 - 2) Portal URL: **http://live.cleartv.ai/portalstb**
 - 3) Then click on “Update Portal #1”

SMART STB

Change portals on Android (OnePlus/ONEPLUS A5000/OnePlus5)
vMAC: 00:1A:79:40:07:8B

Portal #1 has been changed.

Please Reboot application (or exit and start it again) to get your new portals!

Default portal (this is the portal your app will load next time is started) : 1

Portal #1:	<div>1</div> <div>Clear TV</div>	<div>2</div> <div>http://live.cleartv.ai/portalstb</div>	Update Portal #1	<div>3</div>
Portal #2:	Portal #2 name...	https://portal-url.tld/c/	Update Portal #2	
Portal #3:	Portal #3 name...	https://portal-url.tld/c/	Update Portal #3	
Portal #4:	Portal #4 name...	https://portal-url.tld/c/	Update Portal #4	
Portal #5:	Portal #5 name...	https://portal-url.tld/c/	Update Portal #5	
Portal #6:	Portal #6 name...	https://portal-url.tld/c/	Update Portal #6	
Portal #7:	Portal #7 name...	https://portal-url.tld/c/	Update Portal #7	

9. After you have successfully completed the form on the **Smart-STB website**, proceed to your Smart TV, then go to Settings and click on Reboot Application. If you can't find this option, simply exit the application and start it again.
10. Once the application restarts, our MAG Poral will load and your Smart TV will be connected to the **CLEAR TV** platform.
